[kristofcreative](#) Thin selling any kind of components on stock sites is good. That's waht's so great about digital products, just keep reselling. [#dcth](#) -7:18 PM Jun 18th, 2009

[kg_creative](#) [@michelletrevino](#) that's the rub. I don't think a client would appreciate seeing concept on stock. He might wonder about the "original" [#dcth](#) -7:18 PM Jun 18th, 2009

[madysondesigns](#) [@antonea](#) I haven't noticed that, but that is a problem. That kind of market should be able to come up with something themselves. [#dcth](#) -7:18 PM Jun 18th, 2009

[kflahaut](#) [@michelletrevino](#) I doubt most clients have any idea where or what these sites are. You don't have to exclusively do custom work [#DCTH](#) -7:18 PM Jun 18th, 2009

 [standup4design @bluelobsterart](#) [#Q1](#) [#DCTH](#) I think that's up to the agreements set forth with your client. Usually copyright is involved. Especially brands -7:14 PM Jun 18th, 2009

 [ChrisGuimarin @tomokeefe](#) Hello and welcome, Join the Party! [#DCTH](#) -7:13 PM Jun 18th, 2009  

 [DCTH](#) Since we are on the topic. [@GO_Media](#) sells stock vectors and their works is still awesome. They are not devaluing themselves. [#dctch](#) -7:13 PM Jun 18th, 2009  

 [bluelobsterart](#) [#dctch](#) Q1 This is a fantastic question, by the way. [#dctch](#) -7:13 PM Jun 18th, 2009  

 [maddisondesigns @DCTH](#) If that design is not being used, then yeah, tweak it a bit and if you can make a few \$\$ on it, why not [#dctch](#) -7:13 PM Jun 18th, 2009  

 [iamtiff @nabrown78](#) I don't know about that kind of agreement. It sucks for someone to butcher your design, but that's a part of business :) [#DCTH](#) -7:13 PM Jun 18th, 2009

 [bluepixeldesign](#) [@robbmajor](#) I agree. I give rights to the design once it's paid for, if they aren't using it, it's still theirs. [#DCTH](#) -7:13 PM Jun 18th, 2009

 [reneexsn](#) [#dctH](#) Q1 I dont see how creating a theme & selling it online is any dffrnt to selling a design to a client you did work and get paid for it. -7:13 PM Jun 18th, 2009

 [nabrown78](#) [@madysondesigns](#) You're right. I'm all for good design for the masses. [#dctH](#) -7:12 PM Jun 18th, 2009

 [ChrisGuimarin](#) [@adeleven](#) That is where quality becomes the most important. The quality of the work needs to be present. [#DCTH](#) -7:12 PM Jun 18th, 2009

 [madysondesigns](#) [@robbmajor](#) I agree, although when I do a project, if a client doesn't go with it, I consider that mine to do what I will with. [#dctH](#) -7:12 PM Jun 18th, 2009

 [michelletrevino](#) [#Q1](#) Also, you have to think about your image. Is selling stock design the image you want to portray? It's an interesting question. [#dctH](#) -7:12 PM Jun 18th, 2009

 [kg_creative](#) [@bluelobsterart](#) [#Q1](#) I'd say only resell if given express permission. Otherwise, it's paid work that went defunct. [#dctH](#) -7:12 PM Jun 18th, 2009

 [chriswallace](#) [@ChrisGuimarin](#) Are you saying passive is bad? It's just about the best thing you can ask for. [#dctH](#) -7:12 PM Jun 18th, 2009

 [DCTH](#) [#Q1](#) So its safe to say depending on how its used it could be ok to sell your old stuff as stock? [#dctH](#) -7:12 PM Jun 18th, 2009

 [standup4design](#) [@antonea](#) [#Q1](#) Yes but you also get to see people enjoying your work and using it in their own way [#DCTH](#) -7:12 PM Jun 18th, 2009

 [maddisondesigns](#) [@traceygr](#) Hi Tracey. You manage to catch [#Q1](#) [#dctH](#) -7:11 PM Jun 18th, 2009

 [madysondesigns](#) [#Q1](#) Good design should be accessible to all- it's so important! [#dctH](#) -7:11 PM Jun 18th, 2009

 [mikeconaty](#) [@nabrown78](#) As long as that's spelled out in a signed agreement, then fine... otherwise, I'd shy away from it. [#DCTH](#) -7:11 PM Jun 18th, 2009

 [nabrown78](#) Hm. I also wonder if there is an agreement that the design won't be jiggered with (ruined!) once bought...that would be hard to take [#dctH](#) -7:11 PM Jun 18th, 2009

 [robbmajor](#) [@bluelobsterart](#) [#Q1](#) reselling work a company/employer has paid for regardless of whether they're still in business seems wrong to me. [#dctH](#) -7:11 PM Jun 18th, 2009

 [madysondesigns](#) [#Q1](#) I also think that if someone knows they don't have graphic skill, it's great for them to be able to get something well designed. [#dctH](#) -7:11 PM Jun 18th, 2009

 [adeleven](#) the problem is there r so many of this places & people form other countries

just sell so cheap is hard 2 compete when 1 is in US/EU [#dctch](#) -7:11 PM Jun 18th, 2009

[iamtiff @bluelobsterart](#) If it is no longer in use, then I think it's cool. But then again it depends on your agreement. [#DCTH](#) -7:11 PM Jun 18th, 2009

[chriswallace @bluelobsterart](#) As long as you only licensed the design to the client. [#dctch](#) -7:11 PM Jun 18th, 2009

[adamcombs #Q1](#) I think it's a great idea, never let a good idea go to waste! [#dctch](#) -7:10 PM Jun 18th, 2009

[DCTH @bluelobsterart](#) Related to [#Q1](#): is it ethical to try to sell a a template you designed for a company or employer that is closed? [#dctch](#) -7:10 PM Jun 18th, 2009

[mikeconaty @michelletrevino](#) Exactly. A lot of the work I've done incorporates images that are the clients, not mine [#DCTH](#) -7:10 PM Jun 18th, 2009

[madysondesigns @nabrown78](#) True. Although you could just sell the design on some places, or you could sell components to the design. Lots of options. [#dctch](#) -7:10 PM Jun 18th, 2009

[antonea @madysondesigns](#) Yeah, with WP themes you usually keep the rights. With stock art, someone is using your work as their own, basically. [#dctch](#) -7:10 PM Jun 18th, 2009

[robbmajor @curouslt #Q1](#) It's not spec work to me. Spec has become a dirty word [#designers](#) use to describe anything they don't particularly like. [#dctch](#) -7:10 PM Jun 18th, 2009

[nabrown78 @mikeconaty](#) That's important. For me they only own the final design they chose, not any other concepts [#dctch](#) -7:10 PM Jun 18th, 2009

[ChrisGuimarin @DCTH](#) I believe that it is great for passive income but like you said earlier keyword: Passive. [#Q1 #DCTH](#) -7:10 PM Jun 18th, 2009

[traceygr](#) Hi I'm doing my first [#dctch](#) and am a bit late (it's a time zone thing) so just catching up on the conversation now -7:10 PM Jun 18th, 2009

[sourapplemedia #Q1](#) Bills have to get paid and if you can provide quality work then go for it. [#Dctch](#) -7:09 PM Jun 18th, 2009

[antonea @DCTH](#) I think selling stock art is great for the designer. \$/free advertisement. It depends on who buys it. Designers or non-designers [#dctch](#) -7:09 PM Jun 18th, 2009

[michelletrevino](#) [@mikeconaty](#) [#Q1](#) And do you have all the rights to everything in the design. Be careful with fonts, photos and icons. [#dcth](#) -7:09 PM Jun 18th, 2009

[iamtiff](#) Q1: I think it's a good source of extra income. Spec work is whole other game I believe. [#DCTH](#) -7:09 PM Jun 18th, 2009

[sunwukung](#) [#Q1](#) stock can suffer from being generic, so I don't think it poses a major hazard to the main market for web design. [#dcth](#) -7:08 PM Jun 18th, 2009

[mikeconaty](#) [#Q1](#) It would depend on how your agreement w/ the client is structured, do they have rights to just the final design, or all the work? [#DCTH](#) -7:08 PM Jun 18th, 2009

[nabrown78](#) [@madysondesigns](#) Yeah, exactly. Still would be a time investment though, to take it from concept to functioning WP theme, for example [#dcth](#) -7:08 PM Jun 18th, 2009

[maddisondesigns](#) [@DCTH](#) [#Q1](#) Yeah, I reckon if you've got the skills to don something like that, whether it's templates, photos, etc., why not do it [#dcth](#) -7:08 PM Jun 18th, 2009

[bluelobsterart](#) [@DCTH](#) [#dcth](#) Q1 Selling old PSD templates sounds appealing. [#dcth](#) -7:08 PM Jun 18th, 2009

[DCTH](#) [@bluelobsterart](#) Most places you have a profile. And then it shows all the work on the stock site. Then your info. [#dcth](#) -7:08 PM Jun 18th, 2009

[DCTH](#) [#Q1](#) There are tons of places to sell now you can sell animation, video, photos, PSD templates etc. good for passive income or no? [#dcth](#) -7:07 PM Jun 18th, 2009

[robbmajor](#) [@norabrown78](#) [#Q1](#) My thoughts on it are this: If you're making money & you're happy with the money you're making from it, go for it! [#dcth](#) -7:07 PM Jun 18th, 2009

[bluelobsterart](#) [@DCTH](#) Q1 [#dcth](#) Do you get a link back to your site? That's worth something. [#dcth](#) -7:07 PM Jun 18th, 2009

[madysondesigns](#) [@nabrown78](#) That's a great idea, I know I have a ton of those too. Might as well get something productive out of it! [#dcth](#) -7:06 PM Jun 18th, 2009

[bluelobsterart](#) [@madysondesigns](#) [#dcth](#) Q1 Gotcha. I was not familiar with Themeforest. I get free themes and overhaul them. [#dcth](#) -7:06 PM Jun 18th, 2009

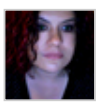

[g33kguy](#) [@DCTH](#) I don't have any issue with it. I think it helps your brand/portfolio if you are producing it. Extra income. [#dcth](#) -7:06 PM Jun 18th, 2009

[madysondesigns](#) [@antonea](#) I think it definitely depends on who you sell it through. I'd feel better finding someone reputable where you keep rights [#dcth](#) -7:06 PM Jun 18th, 2009

[michelletrevino](#) [#Q1](#) Make sure to take an legal stuff to a lawyer though. I don't trust these places. [#dctch](#) -7:06 PM Jun 18th, 2009

[nabrown78](#) [@DCTH](#) Yeah, that's what I've been pondering...decent designs just sitting on my hard drive aren't doing anyone any good [#dctch](#) -7:06 PM Jun 18th, 2009

[DCTH](#) [@antonea](#) What do you think of it being left over bits and pieces and selling them instead of being dust on a harddrive? [#dctch](#) -7:05 PM Jun 18th, 2009

[gabediaz](#) [Q#1](#) it's a good source of passive income, if you can do it, why not. [#dctch](#) -7:05 PM Jun 18th, 2009

[kg_creative](#) [@DCTH](#) [#Q!](#) say, you provide client with 3 designs, they pick 1, why not drop the other 2 as templates? good supplemental. [#dctch](#) -7:05 PM Jun 18th, 2009

[MattLewisDesign](#) [#Q1](#) [@DCTH](#) Agreed, selling unused client work or personal work is where you can make up for what at the time was "wasted" time [#DCTH](#) -7:05 PM Jun 18th, 2009

[antonea](#) [#Q1](#) I have never been an advocate of selling stock art. I am sure its good income, but I hate the thought of work not being your own. [#dctch](#) -7:05 PM Jun 18th, 2009

[kflahaut](#) [DCTH](#) [#Q1](#) I wouldn't consider it spec work, just something to supplement regular income. [#DCTH](#) -7:04 PM Jun 18th, 2009

[madysondesigns](#) [@bluelobsterart](#) [#Q1](#) It's not really free, you sell it like stock photography. If you're good, there is potential to make some good \$ [#dctch](#) -7:04 PM Jun 18th, 2009

[michelletrevino](#) [@DCTH](#) [Q1](#) I have no problem with that. It's like stock photos and you would retain the rights. [#dctch](#) -7:04 PM Jun 18th, 2009

[MattLewisDesign](#) [@lwcavallucci](#) definitely, I'm trying to get my eyes trained again for this lol everything moves so fast [#DCTH](#) -6:32 PM Jun 18th, 2009

[lwcavallucci](#) [@alexheizer](#) Gotcha. I'm just a n00b here, so I'm just learning the *rules* [#dcth](#) -6:32 PM Jun 18th, 2009

[g33kgurrl](#) I get "smart pausing" How about dumbing it down though (i.e. being able to disable it) [#dcth](#) -6:32 PM Jun 18th, 2009

[ChadEngle](#) If you want to hop on and ask some Q's during the chat I am here in the flesh til Q&A starts. <http://bit.ly/14jTmj> [#dcth](#) -6:32 PM Jun 18th, 2009

[curiouslt](#) [@MattLewisDesign](#) been good! missed quite a few of these, happy to connect with everyone again! How are you? [#dcth](#) -6:32 PM Jun 18th, 2009

[lwcavallucci](#) I was told that we're going out to dinner, so I won't be here long, unfortunately :([#dcth](#) -6:31 PM Jun 18th, 2009

[alexheizer](#) [@lwcavallucci](#) yes, but I've been on enough Linux forums to know it's a nice feature to have if someone decides to troll for hours [#dcth](#) -6:31 PM Jun 18th, 2009

[curiouslt](#) [@iamtiff](#) hey! missed you coming in :-)) [#dcth](#) -6:31 PM Jun 18th, 2009

[lwcavallucci](#) [@MattLewisDesign](#) Oh, that does make sense. But come private convos can be done outside of here. [#dcth](#) -6:31 PM Jun 18th, 2009

[MattLewisDesign](#) [@curiouslt](#) Hey how have you been? [#dcth](#) -6:31 PM Jun 18th, 2009

[ichrisbarnes](#) Comparing TweetChat and Twitterfall side by side with [#DCTH](#) -6:30 PM Jun 18th, 2009

[madysondesigns](#) [@mikeconaty](#) Twitter search [#fail](#) again... [#dctch](#) -6:30 PM Jun 18th, 2009

[BurielWebwerx](#) [@DCTH](#) Agreed! Smartpause works wonders when scrolling through the timeline. [#dctch](#) -6:30 PM Jun 18th, 2009

[lwcavallucci](#) [@dolceshan](#) [@g33kgurrl](#) But we're all here to converse. It sends a bad message to mute someone. Harsh. [#dctch](#) -6:30 PM Jun 18th, 2009

[madysondesigns](#) [@g33kgurrl](#) [@iamtiff](#) I'm sure it will just take some getting used to, but its very different. [#dctch](#) -6:29 PM Jun 18th, 2009

[dolceshan](#) [@kg_creative](#) yeah and then you would click on someone to reply and it would scroll down and you'd reply to another name by accident [#dctch](#) -6:29 PM Jun 18th, 2009

[mikeconaty](#) hmmm, I'm not seeing some folks here in Tweetchat... like [@iblend](#) who I see in regular Twitter... hmmm [#DCTH](#) -6:29 PM Jun 18th, 2009

[madysondesigns](#) [@DCTH](#) But then if you're not all the way up to the top, they all build up and you don't realize. [#dctch](#) -6:29 PM Jun 18th, 2009

[g33kgurrl](#) Oh hey Mike - what's that link you posted last week to the "shut me up while I [#dctch](#) chat" feature? [#dctch](#) -6:29 PM Jun 18th, 2009

[kg_creative](#) [@madysondesigns](#) I <3 the smart pause. I hated trying to find a tweet and have it constantly scroll out! [#dctch](#) -6:29 PM Jun 18th, 2009

[MattLewisDesign](#) [@standup4design](#) thanks! [#DCTH](#) -6:29 PM Jun 18th, 2009

[jmanstudios](#) TweetChat is really cool... reminds me of the FriendFeed Live feeds. [#dctch](#) [#DCTH](#) -6:29 PM Jun 18th, 2009

[dolceshan](#) [@lwcavallucci](#) I was thinking the same.. what would cause someone to be muted in this chat.. kinda harsh :p [#dctch](#) -6:29 PM Jun 18th, 2009

[g33kgurrl](#) [@lwcavallucci](#) Bcuz I'm a flibberty-gibbet and some people prefer not to hear me so much. [#dctch](#) -6:29 PM Jun 18th, 2009

[alexheizer](#) [@madysondesigns](#) It's helpful for those of us who lose track and have to scroll down to catch up. [#dctch](#) -6:29 PM Jun 18th, 2009

[MattLewisDesign](#) [@lwcavallucci](#) my exact thoughts, the "feature" option is nice

tho, especially when you are in conversation [#DCTH](#) -6:28 PM Jun 18th, 2009

[michelletreviso](#) I've had my iPhone since the beginning and still can't type very fast. Very sad. [#dctch](#) -6:28 PM Jun 18th, 2009

[standup4design](#) [@MattLewisDesign](#) Congratulations then! Good for you. [#DCTH](#) -6:28 PM Jun 18th, 2009

[iamtiff](#) [@madysondesigns](#) I agree it is weird [#DCTH](#) -6:28 PM Jun 18th, 2009

[DCTH](#) [@madysondesigns](#) I like the smartpause. You don't have to play whack-a-mole to reply to a tweet. [#dctch](#) -6:28 PM Jun 18th, 2009

[g33kgurrl](#) [@madysondesigns](#) It's a bit different. [#dctch](#) -6:28 PM Jun 18th, 2009

[lwcavallucci](#) Why would anyone "mute" anyone here? [#dctch](#) -6:28 PM Jun 18th, 2009

[madysondesigns](#) Ok, this new smart pause thing on TweetChat is odd. [#dctch](#) -6:28 PM Jun 18th, 2009

[robbmajor](#) [@alexheizer](#) touché. [#dctch](#) -6:27 PM Jun 18th, 2009

[purplecowstudio](#) Are there any IU grads representing? woo woo (currently a Graphic Design BFA) [#dctch](#) -6:27 PM Jun 18th, 2009

[robbmajor](#) [@michelletreviso](#) I guess you won't know when/if you've been muted. I assure you I'm listening, though. [#dctch](#) -6:27 PM Jun 18th, 2009

[alexheizer](#) [@robbmajor](#) yes, but a full-size keyboard on my MacBook works better when things scroll fast... ;) [#dctch](#) -6:27 PM Jun 18th, 2009

[MattLewisDesign](#) [@mikeconaty](#) yep I'll be at Bridge Worldwide here in downtown Cincinnati <http://www.bridgeworldwide.com/> as an "Experience Planner" [#DCTH](#) -6:26 PM Jun 18th, 2009

[standup4design](#) [@blogdesigner](#) Catch you next time. [#dctch](#) -6:26 PM Jun 18th, 2009

[michelletreviso](#) [@robbmajor](#) Ok, who muted me? Oh, I guess I won't know. ;) [#dctch](#) -6:26 PM Jun 18th, 2009

[robbmajor](#) [@alexheizer](#) [#TweetChat](#) also works on [#iPhone](#), and it works pretty dang well in my experience. [#dctch](#) -6:26 PM Jun 18th, 2009

[MattLewisDesign](#) [@robbmajor](#) I think it was an excellent move, I'm messing with User Control right now, pretty solid [#DCTH](#) -6:26 PM Jun 18th, 2009

[mikeconaty](#) [@MattLewisDesign](#) Very cool... what's the company again? It's a design firm, right? [#DCTH](#) -6:25 PM Jun 18th, 2009

[standup4design](#) [@DCTH](#) Did you ever try Twitterfall? You have more controls for the stream and can do more than send @ replies. [#dctch](#) -6:25 PM Jun 18th, 2009

[robbmajor](#) [@MattLewisDesign](#) Check out "User Control" in [#TweetChat](#). Use it to highlight certain users (like [@DCTH](#)) and mute others. [#dctch](#) -6:25 PM Jun 18th, 2009

[g33kgurrl](#) [@kg_creative](#) You can always catch up. But make sure you ask [@PixISequence](#) about his back end issues. He'll appreciate it. [#dctch](#) -6:25 PM Jun 18th, 2009

[MattLewisDesign](#) [@standup4design](#) just got out of University of Cincinnati's Design College (DAAP) <http://daap.uc.edu/> - Bachelor's in Digital Design :) [#DCTH](#) -6:25 PM Jun 18th, 2009

[alexheizer](#) I could have used this on [#designchat](#) last night. Much easier typing than on my iPhone [#dctch](#) -6:24 PM Jun 18th, 2009

[t_kawai](#) [@michelletrevino](#) It seems to go faster and faster each week. I'm having trouble keeping up. haha [#dctch](#) -6:24 PM Jun 18th, 2009

[robbmajor](#) [@MattLewisDesign](#) smart pausing & User Control have been in the [#TweetChat](#) beta. I guess [@brooksbennett](#) decided to go live w/ 'em. [#dctch](#) -6:24 PM Jun 18th, 2009

[purplecowstudio](#) Does anyone know of any good design to look out for at the Biennale in Venice, Italy? I'm there right now and would love see it. [#dctch](#) -6:24 PM Jun 18th, 2009
