[countzeero](#) [@DCTH](#) exactly! moodboards are by definition abstract - if you are doing them right => [#edctH](#) -4:32 PM Jun 18th, 2009

[rhdesign](#) [@bluepixeldesign](#) lol agreed [#EDCTH](#) -4:32 PM Jun 18th, 2009

[das6894](#) [#Q5](#) I tend to grab colors from the imagery that I am working with or take a color and toy around with the bright, sat. and hue in PS [#EDCTH](#) -4:32 PM Jun 18th, 2009

[kg_creative](#) [@dctH](#) back from lunch - catching up with [#edctH](#) topics. -4:32 PM Jun 18th, 2009

[DCTH](#) [@countzeero](#) hehe I have found that - but I think thats coz my mood boards are very abstract lol [#EDCTH](#) -4:31 PM Jun 18th, 2009

[countzeero](#) [countzeero@akiramorita](#) I use moodboards a lot too but only for myself, they tend to confuse clients... [#edctH](#) -4:30 PM Jun 18th, 2009

[tomsturge](#) [@bluepixeldesign](#) Mood board is a collection of wireframes, colour samples, inspirations and textures <http://bit.ly/5oSMD> [#edctH](#) -4:30 PM Jun 18th, 2009

[DCTH](#) [@cameronolivier](#) just so we can separate the time-zones so people can see the questions asked in and groups of people stuff you know [#EDCTH](#) -4:30 PM Jun 18th, 2009

[bluepixeldesign](#) [@rhdesign](#) Unless the logo colours are hideous... then I try to use better shades of those colours or something opposite. [#EDCTH](#) -4:30 PM Jun 18th, 2009

[michelletrevino](#) [@tomsturge](#) I tried Adobe Kuler a long time ago. I may need to give it another whirl. :) [#EDCTH](#) -4:30 PM Jun 18th, 2009

[jwidmer](#) RT [@DCTH](#): [#Q5](#) personally I really love the advice [@obox](#) gives - <http://is.gd/15A9Z> ([@tomsturge](#)) [#EDCTH](#) -4:30 PM Jun 18th, 2009

[cameronolivier](#) [@sillysushi](#) haha yeah- sucks. the extra pressure, albeit self inflicted - causes me to drag my feet haha [#edcth](#) -4:30 PM Jun 18th, 2009

[AreaMalta](#) [@cameronolivier](#) colour often comes into my head subconsciously when im briefed. i start working and i already have an idea [#EDCTH](#) -4:30 PM Jun 18th, 2009

[RyanDownie](#) [#Q5](#) I define the feel and mood of the site in the projects reserch phase and then once have a feel invisiond I use kular [#EDCTH](#) -4:30 PM Jun 18th, 2009

[cameronolivier](#) can I ask a quick Q - why the adjusted [#dcth](#) tag to [#edcth](#) ? as it's dif time span, could keep it in [#dcth](#) - easier to track gen discussion? -4:29 PM Jun 18th, 2009

[michelletrevino](#) [#Q5](#) I also like pulling colors from real things and, if not available, photos. [#EDCTH](#) -4:29 PM Jun 18th, 2009

[DCTH](#) [@bluepixeldesign](#) good example :) <http://is.gd/15AiV> [#EDCTH](#) -4:29 PM Jun 18th, 2009

[sillysushi](#) [@cameronolivier](#) LOL! I think it's more like deadlines intrigue you to procrastinate. I get that too sometimes. :)) [#edcth](#) -4:29 PM Jun 18th, 2009

[tomsturge](#) [@michelletrevino](#) Adobe Kuler is an interesting tool as well. Haven't used either in a professional manner tho [#edcth](#) -4:28 PM Jun 18th, 2009

[bluepixeldesign](#) [@akiramorita](#) Mood board? [#EDCTH](#) -4:28 PM Jun 18th, 2009

[cameronolivier](#) RT [@rhdesign](#): [#Q5](#) I usually try to pull colors out of the logo when designing a website for a company [#EDCTH](#) ** - me too :) -4:28 PM Jun 18th, 2009

[ChrisGuimarin](#) [@DCTH](#) I use Adobe Kuler [#EDCTH](#) -4:27 PM Jun 18th, 2009

[countzeero](#) [#Q5](#) my approach to color schemes is "keep it simple" and "less is more" adobe Kuler and colorlovers are good inspiration sources too [#edcth](#) -4:27 PM Jun 18th, 2009

[bluepixeldesign](#) [@DCTH](#) [#Q5](#) Depends on the site. Complimentary, contrasting, similar colours... Lots taken from their logo or images... [#EDCTH](#) -4:27 PM Jun 18th, 2009

[DCTH](#) [@sillysushi](#) me either - I see that causing more problems than solving them lol [#Q5](#) [#EDCTH](#) -4:27 PM Jun 18th, 2009

[tomsturge](#) [@DCTH](#) Yeah I saw that. Nice idea, but the results might not suit the design job [#edcth](#) -4:27 PM Jun 18th, 2009

[tesseract](#) [#Q5](#) [#EDCTH](#) i do a lot of work w/ licensed colleges in the apparel industry... gives me limited color palette ;) they like their school colors -4:27 PM Jun 18th, 2009

[cameronolivier](#) [#Q5](#) ah. try to get an idea from client discussion. then whatever comes to me, really. haven't found strong colorscheme method yet [#EDCTH](#) -4:27 PM Jun 18th, 2009

[rhdesign](#) [#Q5](#) I usually try to pull colors out of the logo when designing a website for a company [#EDCTH](#) -4:26 PM Jun 18th, 2009

[AreaMalta](#) [#Q5](#) packaging, all sorts of it. i tend to rip it up and keep nice colour combos [#EDCTH](#) -4:26 PM Jun 18th, 2009

[DCTH](#) [#Q5](#) personally I really love the advice [@obox](#) gives - <http://is.gd/15A9Z> ([@tomsturge](#)) [#EDCTH](#) -4:26 PM Jun 18th, 2009

[cameronolivier](#) [@AreaMalta](#) yip - although by then I'd most probably have redesigned the never launched site again.. and be back at square one haha [#EDCTH](#) -4:26 PM Jun 18th, 2009

[michelletrevino](#) [#Q5](#) Besides playing around on COLOURlovers for hours? LOL [#EDCTH](#) -4:26 PM Jun 18th, 2009

[akiramorita](#) [#EDCTH](#) [#Q5](#) mood board. works every time :) -4:25 PM Jun 18th, 2009

[tomsturge](#) [@DCTH](#) It's been a superb start to the new Euro time slot. [#edcth](#) -4:23 PM Jun 18th, 2009

[DCTH](#) [#Q5](#) What is your strategy/approach to creating colour schemes for your designs? (from [@tomsturge](#)) [#EDCTH](#) -4:23 PM Jun 18th, 2009

[AreaMalta](#) [@cameronolivier](#) so we might get to peep at it in 2015? ;) [#EDCTH](#) -4:23 PM Jun 18th, 2009

[michelletevino](#) [@DCTH](#) I follow those with similar interests. I also respond to people in searches often without following them. [#EDCTH](#) -4:22 PM Jun 18th, 2009

[DCTH](#) Last Question coming up :) Thx for all the responses tonight its been an awesome start to the new Time-zone setup! [#EDCTH](#) -4:22 PM Jun 18th, 2009

[judithsthoughts](#) [@DCTH](#) [@andysowards](#) [@bluepixeldesign](#) [#Q4](#) [#EDCTH](#) no. it all depends on the persons usage of twitter. -4:21 PM Jun 18th, 2009

[fredyatesiv](#) [@bluepixeldesign](#) yea i use TD on desktop and iphone but i still don't like to follow people i'm not interested in :) [#edcth](#) -4:21 PM Jun 18th, 2009

[cameronolivier](#) [@DCTH](#) haha I have a 90% finished site from 2004 that never went live. currently working on new site.. but at design stage only :([#EDCTH](#) -4:21 PM Jun 18th, 2009

[patternhead](#) [@bluepixeldesign](#) [@DCTH](#) mmm, I'll see if I can test it in 2.8 and let ya know [#edcth](#) -4:20 PM Jun 18th, 2009

[bluepixeldesign](#) [@fredyatesiv](#) Was doing the same, but with Tweetdeck's Groups (now on iPhone) I *could* follow everyone and still only read my favs. [#EDCTH](#) -4:20 PM Jun 18th, 2009

[cameronolivier](#) [@sillysushi](#) ...I'm more like deadlines help me to procrastinate, otherwise I'd focus a lot ;) [#Q2](#) [#edcth](#) -4:19 PM Jun 18th, 2009

[akiramorita](#) [#Q2](#) [#EDCTH](#) I set deadlines but rarely keep 'em. Not a good thing, as I think they can be v. productive constraints. Need better discipline.. -4:19 PM Jun 18th, 2009

[AreaMalta](#) [#Q4](#) generally yes.. but I tend to follow if theres something that i think might be interesting. even just an impression i get [#EDCTH](#) -4:18 PM Jun 18th, 2009

[DCTH](#) [@patternhead](#) its compatible with 2.7 so it should be fine with 2.8 until an update atleast :) give it a go :) [#EDCTH](#) -4:18 PM Jun 18th, 2009

[fredyatesiv](#) [#q4](#) i follow when i like what they tweet and expect people to do the same with me, i don't mutual follow just because its expected [#edcth](#) -4:17 PM Jun 18th, 2009

[patternhead @DCTH #Q4](#) I follow most people that follow me unless their stream is full of "make mega money for free" type messages [#edcth](#) -4:17 PM Jun 18th, 2009

[bluepixeldesign @patternhead](#) Ah, didn't check that. Would love to hear what you end up with in the end... [#EDCTH](#) -4:16 PM Jun 18th, 2009

[tomsturge #Q4](#) I follow people back if there timelines have content that I'm also interested in. The reason my follow/follower # is now similar [#edcth](#) -4:16 PM Jun 18th, 2009

[DCTH #Q4](#) I (as in [@svgrob](#) lol) follow designers back mostly 100%, then people who engage with me :) [#EDCTH](#) -4:16 PM Jun 18th, 2009

[tesseractainz Q4 #EDCTH](#) not everyone. if they're in the design comm and/or have useful info then i do, yes -4:16 PM Jun 18th, 2009

[RyanDownie #Q4](#) I follow everyone who has more then 50 posts who follows me, I dont want to come across as snob, and twitter is about connecting [#EDCTH](#) -4:15 PM Jun 18th, 2009

[countzeero #Q4](#) No I don't follow everyone who follows me, I only follow if their "profile" interests me [#edcth](#) -4:15 PM Jun 18th, 2009

[andysowards @DCTH](#) I follow those back that I respect, or that engage with me and their audience regularly with @ replies [#EDCTH](#) -4:14 PM Jun 18th, 2009

[patternhead @bluepixeldesign @DCTH #Q3](#) yeah, thx looked at that plugin but need something for WP 2.8 [#edcth](#) -4:14 PM Jun 18th, 2009

[andysowards RT @DCTH #Q4](#) Do you follow everyone who follows you, and why? (from [@bluepixeldesign](#)) [#EDCTH](#) -4:13 PM Jun 18th, 2009

[RyanDownie @tomsturge](#) \designers with our own work thats why we are designers. We are problem solvers and problems can be fixed in infinite ways. [#EDCTH](#) -4:13 PM Jun 18th, 2009

[DCTH #Q4](#) Do you follow everyone who follows you, and why? (from [@bluepixeldesign](#)) [#EDCTH](#) -4:13 PM Jun 18th, 2009

[countzeero #Q3](#) the plugin suggested by [@DCTH](#) looks useful but only if you give your readers editing rights. I would suggest WP mu and BuddyPress [#edcth](#) -4:13 PM Jun 18th, 2009

[bluepixeldesign @DCTH](#) LOL! We came up with the same one! I've never used it before, but know a couple clients who could make use of it. [#EDCTH](#) -4:10 PM Jun 18th, 2009

[countzeero #Q3](#) the filtering would probably require some heavy PHP / java / XML lifting though - and my code mauling skills would probably fail! [#edcth](#) -4:10 PM Jun 18th, 2009

[DCTH #Q3](#) [@patternhead](#) do you mean something like <http://is.gd/15zla> a kinda plugin? [#EDCTH](#) -4:09 PM Jun 18th, 2009

[bluepixeldesign @DCTH #Q3](#) Just did a search: Plugin: Community News Section with Moderation Panel <http://ow.ly/eS1E> Is that what you were thinking? [#EDCTH](#) -4:08 PM Jun 18th, 2009

[countzeero #Q3](#) I would hazard a guess that you will need to set up a feed aggregator and grab/filter feeds from your news sources [#edctch](#) -4:08 PM Jun 18th, 2009

[countzeero @ChrisGuimarin](#) It's all down to self discipline and I aint the best at that, but breaking projects down into simple tasks does help [#edctch](#) -4:07 PM Jun 18th, 2009

[DCTH RT: @michelletrevino](#) Good point! I think we r hardest on ourselves. I also think it's hard 2 be our own designer and client. [#EDCTH #Q2](#) -4:06 PM Jun 18th, 2009

[sillysushi @tomsturge](#) LoL I agree. I do hv trouble w personal works. I guess we just need to know when to stop. But self-critic is important. :D [#edctch](#) -4:06 PM Jun 18th, 2009

[rhdesign @tomsturge](#) unlikely, designers r nvr satisfied w/ own work. Every time i fin a design im already thinking about what i could do bettr [#EDCTH](#) -4:04 PM Jun 18th, 2009

[ChrisGuimarin @countzeero](#) I tried that too an it never worked out well. [#EDCTH](#) -4:03 PM Jun 18th, 2009

[michelletrevino @tomsturge](#) Good point! I think we are the hardest on ourselves. I also think it's hard to be our own designer and our own client. [#EDCTH](#) -4:02 PM Jun 18th, 2009

[DCTH #Q3](#) What are the best options for adding a community news section to Wordpress? (from [@patternhead](#)) [#EDCTH](#) -4:02 PM Jun 18th, 2009

[tomsturge @DCTH](#) Will we ever be happy with our own work? [#edctch](#) -4:01 PM Jun 18th, 2009

[countzeero countzeero#Q2](#) I have started using "Remember The Milk" to set milestones on my personal projects - it is mostly working. [#edctch](#) -4:00 PM Jun 18th, 2009

[DCTH @tomsturge](#) yea your own stuff has to be the worst! well you know how long it took me to get my portfolio up and im still not happy. [#EDCTH](#) -4:00 PM Jun 18th, 2009

[tomsturge @bluepixeldesign](#) Yeah I'm fine with setting and hitting deadlines for client work but my own stuff just keeps going or I redesign [#edctch](#) -3:59 PM Jun 18th, 2009

[bluepixeldesign @tomsturge](#) Same problem here. I work well to deadlines, but have troubles setting them for myself. [#EDCTH](#) -3:58 PM Jun 18th, 2009

[DCTH @AreaMalta](#) awww :D [#EDCTH](#) -3:58 PM Jun 18th, 2009

[DCTH @countzeero](#) Oh yea - content delivery - deadlines are deff a 2 way thing :)

[AreaMalta @DCTH](#) haha my gf just fell asleep to literally leave me holding the baby
[#EDCTH](#) -3:56 PM Jun 18th, 2009

[countzeero #Q2](#) Client Deadlines are a necessary evil, most of the time I find it useful to set them deadlines for content delivery and so on [#edctH](#) -3:56 PM Jun 18th, 2009

[FionaJanine](#) any one need books? apparently taschen is having a huge sale <http://www.fashionista.com/> [#edctH](#) -3:56 PM Jun 18th, 2009

[rhdesign #Q2](#) deadlines are important, without them we would procrastinate too much (don't pretend like you wouldn't) [#EDCTH](#) -3:56 PM Jun 18th, 2009

[tomsturge @sillysushi #Q2](#) That is currently my problem, should start putting firm deadlines on my work [#edctH](#) -3:55 PM Jun 18th, 2009

[DCTH @sillysushi](#) welcome :D [#EDCTH](#) -3:55 PM Jun 18th, 2009

[AreaMalta #Q2](#) i think meeting a deadline is part of meeting a brief.. for almost all client projects theyre essential [#EDCTH](#) -3:54 PM Jun 18th, 2009

[sillysushi #Q2](#) Deadlines help me to focus. Otherwise, I would procrastinate a lot. :))
[#edctH](#) -3:54 PM Jun 18th, 2009

[fredyatesiv](#) ryandownie i can see your point but i've never had the problem of taking so long that it hurts me [#edctH](#) -3:54 PM Jun 18th, 2009

[tomsturge @countzeero](#) Classic quote, Douglas Adams knew what he was talking about
[#edctH](#) -3:52 PM Jun 18th, 2009

[DCTH](#) RT: [@countzeero #Q2](#) "I love deadlines. I like the whooshing sound they make as they go by." - Douglas Adams, I got to agree with him. [#edctH](#) -3:52 PM Jun 18th, 2009

[cameronolivier @fredyatesiv](#) I think they're double edged. As a 'creative' I have a tendency to let the details run away with me.. [#Q2 #edctH](#) -3:50 PM Jun 18th, 2009

[RyanDownie @fredyatesiv](#) But there is a cut off where too long on a job can cost you some serious money. [#EDCTH](#) -3:50 PM Jun 18th, 2009

[DCTH](#) RT: [@fredyatesiv](#) [#Q2](#) deadlines are counterproductive imo. you can't rush design if you want perfect results [#edcth](#) .rmk -3:47 PM Jun 18th, 2009

[cameronolivier](#) [#Q2](#) I try. but I tend to go over them regularly unfortunately. I think some of it is not creating realistic ones, though. [#edcth](#) -3:46 PM Jun 18th, 2009

[tomsturge](#) [@patternhead](#) Ha ha =O) [#edcth](#) -3:46 PM Jun 18th, 2009

[DCTH](#) [@fredyatesiv](#) really interesting - I think my only reason is for focus. Otherwise I would keep picking at it forever lol [#EDCTH](#) -3:45 PM Jun 18th, 2009

[patternhead](#) [@DCTH](#) [#Q2](#) Yeah, I do set deadlines like I'll only use Twitter for 1 hr, I'll only drink 2 pints, I'll eat just 1 cake, never works :D [#edcth](#) -3:45 PM Jun 18th, 2009

[fredyatesiv](#) [#Q2](#) deadlines are counterproductive imo. you can't rush design if you want perfect results [#edcth](#) -3:44 PM Jun 18th, 2009
