jasonatennui @andrew_cohen Yeah, I just show up on horseback. There aren't any roads, so we use smoke signals and rivers for navigation. #DCTH -7:33 PM Apr 9th, 2009

g33kguy @madbrad Nice work dood! w00t! #dcth -7:32 PM Apr 9th, 2009

madysondesigns @cameronolivier I've heard that turning 31 is harder than turning 30, if it makes you feel any better. #dcth -7:31 PM Apr 9th, 2009

g33kgurrl @cameronolivier 30?? I remember that. Sort of. #dcth -7:31 PM Apr 9th, 2009

g33kguy @cnc137 Talk about not getting good support. For us, we at least put in the basics unless the clients wants more SEO tagging. #dcth -7:31 PM Apr 9th, 2009

madbrad @DCTH @cnc137 Q7: I meet them over the phone. :-) #DCTH -7:31 PM Apr 9th, 2009

g33kguy @cecycorrea Got that right girl! The folks we have are very loyal. Only lost a few over the years to other lower cost canned providers #dcth -7:29 PM Apr 9th, 2009

retinart @Megalongcat I'm the same as @andrew_cohen -- appreciate their work and love seeing their process, but besides that, not much unfort #dcth -7:29 PM Apr 9th, 2009

cameronolivier @antonea great song! :) #dcth -7:28 PM Apr 9th, 2009

jasonatennui @sunwukung It does come installed by default. I ended up going XAMPP anyways, though. #DCTH -7:28 PM Apr 9th, 2009

jerrol @cnc137 Usually their corporate offices if a business, Starbucks otherwise #dcth -7:28 PM Apr 9th, 2009

cecycorrea @g33kguy yeah, they can't call Yahoo at 3 in the morning and expect good service.... #dcth -7:27 PM Apr 9th, 2009

Megalongcat @DCTH Graphic and web designers how do you feel about your connection with industrial and architectural designers? #DCTH -7:27 PM Apr 9th, 2009

divinefusion @madbrad so I have a coder, since I decided to focus on what I am good at. #dcth -7:27 PM Apr 9th, 2009

madysondesigns @chriswallace Nirvana to an extent, Alice in Chains, Nine Inch Nails, Soundgarden, etc. Mostly just the grunge and rock stuff. #dcth -7:27 PM Apr 9th, 2009

andrew_cohen @retinart We do a lot of touchscreen applications at my work which is cool. I enjoy web work the most though! #DCTH -7:27 PM Apr 9th, 2009

chriswallace @antonea A classic, no doubt. Did they have any other songs? #dcth -7:27 PM Apr 9th, 2009

cameronolivier @cecycorrea lol I LOVE Lily Allen haha did I say that out loud.. :D #dcth -7:27 PM Apr 9th, 2009

jasonatennui @cameronolivier No kidding... But I'm also still a baby. So you can tease me about being all young and stuff. #DCTH -7:27 PM Apr 9th, 2009

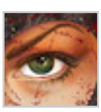
cnc137 Where do all of you normally meet your clients to discuss their projects? I bought a Starbucks card last week to start going there. #dcth -7:27 PM Apr 9th, 2009

madbrad Oh yeah I have another Q. #DCTH -7:27 PM Apr 9th, 2009

cecycorrea @jyoseph does nerdcore hip hop count? :P #dcth -7:27 PM Apr 9th, 2009

cameronolivier @sunwukung not sure tbh. there is a mampp, so dunno, although it is based on linux, I *think*.. so might actually come with that? #dcth -7:26 PM Apr 9th, 2009

antonea @chriswallace Marcy's playground- sex and candy. #dcth -7:26 PM Apr 9th, 2009



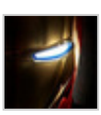
g33kgurrl @madysondesigns I am the "eye" flush out color palettes elements that work or don't.My originals are pure raw emotion, harder to sell. #dcth -7:26 PM Apr 9th, 2009

cameronolivier @jasonatennui lol it was a nice os, better than v7.5 :) never got onto anything over 8.6 really. :(I'm officially carboned. lol #DCTH -7:26 PM Apr 9th, 2009

g33kguy @cnc137 But they miss out on custom service and support from us, that's for sure. #dcth -7:25 PM Apr 9th, 2009

chriswallace @madysondesigns Who? No Doubt? Alanis Morisette? Nirvana? #dcth -7:25 PM Apr 9th, 2009

divinefusion @cecycorrea well I do have an excuse... I currently live in the US, does that count? #dcth -7:25 PM Apr 9th, 2009



g33kguy @cnc137 You can't compete with that. We lost one client to a canned Network Solutions deal as well. #dcth -7:25 PM Apr 9th, 2009

cecycorrea @cnc137 ouch, Yahoo Hosting! That's a low blow.... #dcth -7:25 PM Apr 9th, 2009

retinart @andrew_cohen haha, and i love solving them in print! you guys get to play with cooler toys though :p #dcth -7:25 PM Apr 9th, 2009

madbrad @divinefusion Lots, I think there ?were 7 so far, the big one was: Should designers learn how to code? Why or why not #DCTH -7:25 PM Apr 9th, 2009

antonea @madysondesigns Sirius radio 90's on 9. Its a preset in my car. #dcth -7:25 PM Apr 9th, 2009

divinefusion @svgrob oh ya...gotta get some #dcth -7:25 PM Apr 9th, 2009

cecycorrea @divinefusion you're British and you don't know who Lily Allen is?!?!?! She's fun to listen to :) #dcth -7:25 PM Apr 9th, 2009

madysondesigns Hey, I like SOME 90s music! Many great bands came out of the 90s! #dcth -7:25 PM Apr 9th, 2009

bluewavemedia @madbrad likewise Mr. eyelashes ;) #dcth -7:24 PM Apr 9th, 2009

andrew_cohen @retinart Definitely not as evolved, but the goal of designers is to solve problems...and i love solving them online ;) #DCTH -7:24 PM Apr 9th, 2009

sunwukung @cameronolivier yeah - found it very easy to use. I hear Macs have PHP/ Apache installed by default - is that right? #dcth -7:24 PM Apr 9th, 2009

svgrob @madbrad gn dude :) #DCTH -7:24 PM Apr 9th, 2009

jasonatennui @svgrob Night! Try not to have nightmares about McGriddles. #DCTH -7:24 PM Apr 9th, 2009

divinefusion @cecycorrea dang, she is cute :) lol #dcth -7:24 PM Apr 9th, 2009

madbrad @svgrob cya Rob :-) #DCTH -7:24 PM Apr 9th, 2009

cnc137 I had a client decide to go w/ Yahoo Hosting http://poprl.com/0HCq instead of my custom design. How can we compete w/ $10 a month? #dcth -7:24 PM Apr 9th, 2009

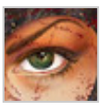
madysondesigns @g33kgurrl I would totally buy it. #dcth -7:24 PM Apr 9th, 2009

antonea So, whats the good talk about tonight? #dcth -7:24 PM Apr 9th, 2009

retinart @andrew_cohen and i would totally agree sir, but type online isnt as evolved as it is print (fair enough, good limitation on web!) #dcth -7:24 PM Apr 9th, 2009

andrew_cohen @madysondesigns It's kind of like the grocery store near my work with the sign calling it the "Delly" #DCTH -7:24 PM Apr 9th, 2009

chriswallace @jyoseph is krumpin'. #dcth -7:24 PM Apr 9th, 2009



g33kgurrl @chriswallace Very diverse musical tastes - Traditional jazz, blues, hip hop, metal, alt rock...depends on my mood. #dcth -7:24 PM Apr 9th, 2009

madbrad @bluewavemedia Peace, I am following, and I look forward to it :-) Great emeeting you :-) #DCTH -7:24 PM Apr 9th, 2009

divinefusion @svgrob just made a fresh cup of PG..still holding out for whatchamacallit #dcth -7:23 PM Apr 9th, 2009

jyoseph @chriswallace who likes gangster rap? *krumps* #dcth -7:23 PM Apr 9th, 2009

chriswallace @andrew_cohen I saw the sign. Yo. #dcth -7:23 PM Apr 9th, 2009

madysondesigns @andrew_cohen That's so true! People don't realize how important it is. It's kind of like grocery shopping in PJs. #dcth -7:23 PM Apr 9th, 2009

cecycorrea @divinefusion Lily Allen is a British singer. Here's a pic http://tinyurl.com/cplad8 #dcth -7:23 PM Apr 9th, 2009

bluewavemedia @madbrad or just email me at kimberlybeaven@gmail.com #dcth -7:23 PM Apr 9th, 2009

retinart @cecycorrea oh thanks! IT was a really fun one to write (lot of work though!) #dcth -7:23 PM Apr 9th, 2009

cameronolivier @sunwukung lol - saw a WAMP screenshot - it looks handy. have sworn by XAMPP for ages now, but might give it a go. you like it? #dcth -7:23 PM Apr 9th, 2009

jasonatennui @cameronolivier Holy crap. I'm trying to remember if I've ever even SEEN OS8. Maybe I played Oregon Trail on it. :) #DCTH -7:23 PM Apr 9th, 2009

andrew_cohen @chriswallace Ace of Base was dope! #DCTH -7:23 PM Apr 9th, 2009

erichmiller @chriswallace Ok, thanks. And yes - 80's lover here too. #dcth -7:23 PM Apr 9th, 2009

svgrob @divinefusion yoyo! :D #dcth -7:22 PM Apr 9th, 2009

bluewavemedia Night Night everyone, thanks for a great chat tonight #dcth -7:22 PM Apr 9th, 2009

divinefusion @madbrad any questions flying around yet? #dcth -7:22 PM Apr 9th, 2009

chriswallace Who likes 90s music? YUCK. #dcth -7:22 PM Apr 9th, 2009

madysondesigns @antonea The UV will make it appear a lot richer in contrast, so I think you should be OK with all the same color. #dcth -7:22 PM Apr 9th, 2009

bluewavemedia @madbrad I am off for the night - but I will send you a nice script link by DM (of course if you are following ;) #dcth -7:22 PM Apr 9th, 2009

chriswallace @erichmiller Search the page for "Chris Wallace" and you should find it on there. #dcth -7:22 PM Apr 9th, 2009

jasonatennui @sunwukung Whatever blows your hair back. I was using MAMP until I got the book contract, then I switched to XAMPP -- cross-platform. #DCTH -7:22 PM Apr 9th, 2009

cameronolivier @jasonatennui lol I pushed it so much! :) hehe I think I got it to run PS 7 on OS8.6 but it was SLOW! lol HDD was 4Gb..miss that thing #DCTH -7:21 PM Apr 9th, 2009

g33kguy @chriswallace 80's music rocks!!! #dcth -7:21 PM Apr 9th, 2009

andrew_cohen @madysondesigns Completely agree. The problem is many people don't recognize good design as key selling points, hence the shite design #DCTH -7:21 PM Apr 9th, 2009

divinefusion @svgrob yo! #dcth -7:21 PM Apr 9th, 2009

jasonatennui @cecycorrea No kidding... #DCTH -7:21 PM Apr 9th, 2009

ElanMan @chriswallace who doesn't?, apart from kajagoogoo and wham :(#dcth -7:21 PM Apr 9th, 2009

creativecurio @antonea and there will be less registration probs if all one color below #dcth -7:21 PM Apr 9th, 2009

svgrob @cecycorrea that is correct! bwahahah etc etc... #dcth -7:21 PM Apr 9th, 2009

sunwukung @jasonatennui I never got on with XAMPP - I like WAMP. Is that allowed? #dcth -7:21 PM Apr 9th, 2009

erichmiller @chriswallace Which one are we voting on Chris? #dcth -7:21 PM Apr 9th, 2009

g33kguy @dcth I also think budget can come into play in decisions made to use stock sites versus going through a designer for a custom deal #dcth -7:21 PM Apr 9th, 2009

cecycorrea @jasonatennui makes... my.... head.... hurt.... to think that! #dcth -7:21 PM Apr 9th, 2009

madysondesigns @andrew_cohen If it means that I don't have to see some of the hideous design I come across, then it's not all bad. #dcth -7:21 PM Apr 9th, 2009

retinart @andrew_cohen Oh yeah, dont get me wrong,there is AMAZING type online, but the ease of crafting a page with type is for print, not web #dcth -7:20 PM Apr 9th, 2009

madbrad @chriswallace I do!! Who can it be knocking at my door? #DCTH -7:20 PM Apr 9th, 2009

divinefusion @madbrad hey@ @cecycorrea, who lol? #dcth -7:20 PM Apr 9th, 2009

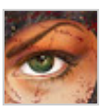
cnc137 @madysondesigns Come on! It is only for one day. What can it hurt? Nobody is looking. :D hehe... #dcth -7:20 PM Apr 9th, 2009

andrew_cohen @retinart I'd consider quite a few of these nice: http://tinyurl.com/3fdq65 #DCTH -7:20 PM Apr 9th, 2009

madbrad @jasonatennui Imagine for a moment just 64, LOL #DCTH -7:20 PM Apr 9th, 2009

creativecurio @antonea you don't have to. The UV will pop nicely with rich blk below it #dcth -7:20 PM Apr 9th, 2009

chriswallace Who loves 80s music? I do. #dcth -7:20 PM Apr 9th, 2009



g33kgurrl @madysondesigns Sounds like a good idea to me. We are seriously storyboarding it. #dcth -7:20 PM Apr 9th, 2009

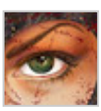
g33kguy @DCTH I think stock sites have their value but if you want something more one of a kind, a custom designer is the way 2 go. #dcth -7:20 PM Apr 9th, 2009

cameronolivier @g33kguy @g33kgurrl lol touche :) nepotism ftw! :) #dcth -7:20 PM Apr 9th, 2009

jasonatennui @cameronolivier Nice. It sounds funny to hear that computers used to have less than 512MB of RAM. :) #DCTH -7:20 PM Apr 9th, 2009

cecycorrea @divinefusion has anyone told you that you really look like Lily Allen in your profile pic? #dcth -7:19 PM Apr 9th, 2009

creativecurio @divinefusion hiya! #dcth -7:19 PM Apr 9th, 2009



g33kgurrl @cecycorrea Villains include InterWebzExploder and BackCover. #dcth -7:19 PM Apr 9th, 2009

madbrad @divinefusion Hey :-) #DCTH -7:19 PM Apr 9th, 2009

cameronolivier @g33kguy lol :) yip! haha #dcth -7:19 PM Apr 9th, 2009

andrew_cohen @retinart I've seen tons of brilliant online typography. Great designers only need a few fonts, but to some those fonts aren't georgia #DCTH -7:19 PM Apr 9th, 2009

cecycorrea @retinart no prob. (I liked your blog post about minimalism/star wars/blue harvest btw) #dcth -7:19 PM Apr 9th, 2009

antonea Question: If I have BC printed with spotUV black on black. Do I want to make the spotUV portion rich black and the card bg lighter? #dcth -7:19 PM Apr 9th, 2009

hollyhagen @nOeL1215 As designers we r trained to be versatile. why we are attracted to crossing over. print to web, web to dev, design to ux #dcth -7:19 PM Apr 9th, 2009

chriswallace Sweet, I'm at 101 votes, PD at 99 votes. Thanks #dcth homies. #dcth -7:19 PM Apr 9th, 2009

madysondesigns @cnc137 I don't dare go naked ;) #dcth -7:19 PM Apr 9th, 2009

garrick_s RT @chriswallace Wow, I'm at 96 votes, need four to take the lead http://tinyurl.com/dm7xzt #dcth -7:19 PM Apr 9th, 2009

retinart @andrew_cohen there's some thats good, a few thats great, but so far and few between -- less room for craft #dcth -7:19 PM Apr 9th, 2009

divinefusion hi everyone #dcth -7:18 PM Apr 9th, 2009

cameronolivier @jasonatennui hey you - shutup with your coder logic :D - had one actually, but it was an old PowerPC 6400, 48Mb ram, 180Mh. lol #DCTH -7:18 PM Apr 9th, 2009

cnc137 @DCTH I've never heard of http://inkd.com before. Looks interesting. I will have to look into it some more later. #dcth -7:18 PM Apr 9th, 2009

retinart @andrew_cohen thats true.. but for some reason the limitation on fonts for online hasn't exactly evoked brilliant online typography? #dcth -7:18 PM Apr 9th, 2009

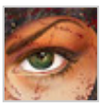
madysondesigns @g33kgurrl Ooh ooh! Can I be in it? :) #dcth -7:18 PM Apr 9th, 2009

cecycorrea @svgrob oh no! you're going to deceive our heroes with your amazing baking concoctions! Beware! #dcth -7:18 PM Apr 9th, 2009

andrew_cohen @madysondesigns @dcth It will never communicate the exact ideals the client wants, but will help those without the means. #DCTH -7:18 PM Apr 9th, 2009

jyoseph @sunwukung yep, absolutely #dcth -7:18 PM Apr 9th, 2009

jasonatennui @chriswallace I LOVE XAMPP. #DCTH -7:18 PM Apr 9th, 2009



g33kgurrl @g33kguy @cameronolivier Actually, I think that's in-sourcing. #dcth -7:18 PM Apr 9th, 2009

madbrad @antonea Hey :-) #DCTH -7:17 PM Apr 9th, 2009

chriswallace I LOVE LAMP. #dcth -7:17 PM Apr 9th, 2009

andrew_cohen @retinart Ugh flash. Sifr is a great tool, iiFR too, but you can't use it for mass body copy and it's not 100% compatible. #DCTH -7:17 PM Apr 9th, 2009

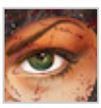
g33kguy @cameronolivier Now that's outsourcing brother. :-) #dcth -7:17 PM Apr 9th, 2009

cnc137 Sorry I'm late. How many of you are participating in CSS Naked Day? My sites are naked: http://DreamStation.cc & http://cnc137.com. #dcth -7:17 PM Apr 9th, 2009

madysondesigns @DCTH Q6- As a print designer, it's cheating to me. But if it lets a biz that doesn't have means present themselves well, could be ok #dcth -7:17 PM Apr 9th, 2009

antonea Hey all! #dcth -7:17 PM Apr 9th, 2009

jyoseph @sunwukung also great community and plugin support #dcth -7:17 PM Apr 9th, 2009



g33kgurrl @madbrad All we need is the winning lottery ticket and we're in the $$$ LOL! #dcth -7:17 PM Apr 9th, 2009

sunwukung @jyoseph I think the selectors is definitely it's best suit #dcth -7:17 PM Apr 9th, 2009

retinart @cecycorrea haha, the george lucas analogy is a perfect example, thanks! #dcth -7:16 PM Apr 9th, 2009

andrew_cohen @sunwukung JQuery pretty much because of what @jasonatennui said. #DCTH -7:16 PM Apr 9th, 2009

svgrob @cecycorrea me! mwahahahahahaha #DCTH -7:16 PM Apr 9th, 2009

bluewavemedia @cecycorrea yeah, I like that one #dcth -7:16 PM Apr 9th, 2009

erichmiller @akiramorita I guess this would also be an option among freelancers, i.e. the cafepress route - but obviously you won't make too much #dcth -7:16 PM Apr 9th, 2009

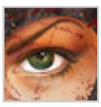
svgrob @gabediaz have a good bday dude! :D #DCTH -7:16 PM Apr 9th, 2009

retinart @andrew_cohen yeah, but theres flash and theres sifr and you can put in movies and audio and link to a thousand references ;) #dcth -7:16 PM Apr 9th, 2009

jyoseph @sunwukung ease of use, good api documentation, css like selectors #dcth -7:16 PM Apr 9th, 2009

madbrad @g33kguy Wow, all ya'll need a really good #aftereffects person, and you are in the $$$$ #DCTH -7:16 PM Apr 9th, 2009

cecycorrea @g33kgurrl who's the villain? #dcth -7:16 PM Apr 9th, 2009



g33kgurrl @bluewavemedia I'm thinking it's so plump it's pimpin' #dcth -7:15 PM Apr 9th, 2009

jasonatennui @sunwukung Mainly because it's so widely used. The plugins that exist are extensive, and tutorials are everywhere. Adoption is easy. #DCTH -7:15 PM Apr 9th, 2009

sunwukung @ElanMan I'm interested in Mootools - but I'm too busy cutting through legacy inline obtrusive JS at work #dcth -7:15 PM Apr 9th, 2009

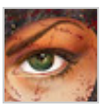
madbrad @akiramorita FIrst I've seen of it :-) #DCTH -7:15 PM Apr 9th, 2009

bluewavemedia @sunwukung "plump" or "pimp" jQuery? ha ha #dcth -7:15 PM Apr 9th, 2009

andrew_cohen @DCTH but it also goes overboard and leads to things such as that website. #DCTH -7:15 PM Apr 9th, 2009

g33kguy @madbrad --> CSS Trikky here. :-) Hero to the codeless generation and dominator of the table-challenged. #dcth -7:14 PM Apr 9th, 2009

andrew_cohen @DCTH Stock helps for those that can't do certain illustrations or don't have the means to hire outsiders. #DCTH -7:14 PM Apr 9th, 2009



g33kgurrl @madbrad :P That's actually a superhero character in our upcoming comic series. CSS Trikky & Pixel Girl =) #dcth -7:14 PM Apr 9th, 2009

sunwukung I'm guessing everyone is going to plump for jQuery - but WHY? #dcth -7:14 PM Apr 9th, 2009

madbrad @bluewavemedia hahaha ;-) #DCTH -7:14 PM Apr 9th, 2009

ElanMan @sunwukung not convinced by the moo yet SWK? #dcth -7:14 PM Apr 9th, 2009

madbrad @sunwukung New to all the scripting. Liking how easy I can use JQuery. Although I'm still a nOOb #DCTH -7:14 PM Apr 9th, 2009

cameronolivier @gabediaz your birthday? hope you have a great one!! :) and a good move :) #dcth -7:14 PM Apr 9th, 2009

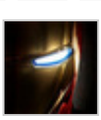
bluewavemedia @madbrad and I thought you loved me more...sniffle, sniffle LOL #dcth -7:14 PM Apr 9th, 2009

cameronolivier @g33kguy lol hehe cool :D - thinking of outsourcing that to my wife haha #dcth -7:13 PM Apr 9th, 2009

DCTH Q6- @akiramorita asks,"You guys heard of http://inkd.com? What do you think of this and other "stock" sites? Good/bad?" #DCTH .rm -7:13 PM Apr 9th, 2009

cecycorrea @retinart boundaries = innovation.... and that is why George Lucas sucked the life out of Star Wars #dcth -7:13 PM Apr 9th, 2009

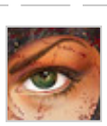
cameronolivier @davidlink agreed - I've gotten mockups from designers, that left me sobbing to myself in the corner.. after client had signed off #DCTH -7:13 PM Apr 9th, 2009



g33kguy @sunwukung At work we lean on jQuery quite a bit. #dcth -7:13 PM Apr 9th, 2009

bluewavemedia @sunwukung jQuery here #dcth -7:13 PM Apr 9th, 2009

madbrad @g33kgurrl Pixel Girl - Hero to Geek Girls everywhere!!!!! #DCTH -7:13 PM Apr 9th, 2009



g33kgurrl @erichmiller LOL! Either that or "MOM" #dcth -7:12 PM Apr 9th, 2009

andrew_cohen @retinart Retinart what about being limited to core fonts? That's kind of a big limit to some people. #DCTH -7:12 PM Apr 9th, 2009

svgrob @retinart yea vinyl is my main physical material really :) #DCTH -7:12 PM Apr 9th, 2009

g33kguy @hollyhagen It's a tough balance as I do both as well. Kudos to you walking that thin line. #dcth -7:12 PM Apr 9th, 2009

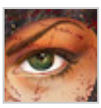
gabediaz Missing #dcth due to combo of moving and bday hope everyone has a good one!! -7:12 PM Apr 9th, 2009

sunwukung Q: anyone use ExtCore or YUI JS libraries, or is everyone a jQuery fan. If so - why? #dcth -7:12 PM Apr 9th, 2009

chriswallace Red Hot Chili Peppers - Around the World just came on. I am rockin' out. #dcth -7:12 PM Apr 9th, 2009

madysondesigns Sweet! Made it in time for the end :) #dcth -7:12 PM Apr 9th, 2009

cecycorrea @g33kgurrl I agree, design is left side of the brain, coding/programing is right side of the brain #dcth -7:12 PM Apr 9th, 2009



g33kgurrl @cecycorrea They call me Pixel Girl - Hero to Geek Girls everywhere. :) #dcth -7:12 PM Apr 9th, 2009

jasonatennui @cameronolivier You could always get a Mac. ;) #DCTH -7:12 PM Apr 9th, 2009

g33kguy @madysondesigns I just like to help folks and make use of available resources and skillz to do that. :-) #dcth -7:12 PM Apr 9th, 2009

retinart @tomsturge I think the uniqueness in print is that it has its limits.. where as multimedia is almost limitless. boundaries=innovation #dcth -7:12 PM Apr 9th, 2009

chriswallace @jyoseph I think no css is helping me get more votes anyway. #dcth -7:11 PM Apr 9th, 2009

madysondesigns Q2: Currently work in house and have done agency, greatly prefer in house. Although have never freelanced. #dcth -6:37 PM Apr 9th, 2009

davidlink @chriswallace What about small-time? WP is lowering the bar for entry so low... just about anyone can run a blog. Designer rspnsiblty? #DCTH -6:37 PM Apr 9th, 2009

madbrad @jasonatennui really? I didnt know!!! #DCTH -6:37 PM Apr 9th, 2009

cameronolivier @SuperMaryAnn seems good - it's barely gone 30min and I'm already behind though hehe #dcth -6:37 PM Apr 9th, 2009

andrew_cohen @creativecurio It's enjoyable. We do all kinds of interactive work, but i'd prefer to do web design day in and day out. It's still gr8 #DCTH -6:37 PM Apr 9th, 2009

creativecurio @g33kguy interesting. At my current place I'm 1 of 2 inhouse designers and we have a separate brand dept too #dcth -6:37 PM Apr 9th, 2009

jasonatennui @madbrad That goes back to all that CSS goodness. #DCTH -6:36 PM Apr 9th, 2009

DCTH Q3- @madbrad asks, "What forms do you use? Or do you make your own, for online applications where data is dumped to a database?" #DCTH .rm -6:35 PM Apr 9th, 2009

chriswallace @davidlink Well, that's tied directly to supply and demand. As corporate demand increases, those themes will start flooding in. #dcth -6:35 PM Apr 9th, 2009

bluewavemedia @davidlink I think for theme dev will get more fine tuned with more bells and whistles, faster loading, more integration & options #dcth -6:35 PM Apr 9th, 2009

andrew_cohen @creativecurio We used to have another designer and we never had drama. Mainly fed ideas off each other which worked well. #DCTH -6:35 PM Apr 9th, 2009

svgrob @cameronolivier gives me something to hold on to... #dcth -6:34 PM Apr 9th, 2009

g33kguy @creativecurio At my day job, it's all in-house and then some. Full brand department, creative department and UI (I'm in UI). #dcth -6:34 PM Apr 9th, 2009

jasonatennui @svgrob These aren't pancakes, dude. These are evil pancake impersonators. They spit in the face of all that makes pancakes wholesome. #DCTH -6:34 PM Apr 9th, 2009

g33kgurrl @creativecurio My "day" job employer uses in-house.We have a brand department and it is their job to build the brand. #dcth -6:33 PM Apr 9th, 2009

andrew_cohen @jasonatennui @t_kawai @svgrob That or heart failure. #DCTH -6:33 PM Apr 9th, 2009

t_kawai @jasonatennui Hahaha! So very true. #dcth -6:33 PM Apr 9th, 2009

andrew_cohen @creativecurio I work in a small agency environment, i like it but would prefer a web design only agency environment. #DCTH -6:33 PM Apr 9th, 2009

bluewavemedia @madbrad oh not at all, that is good, but some of my clients have very specific requests that is easier for me to code #dcth -6:32 PM Apr 9th, 2009

cameronolivier @jasonatennui lol #DCTH -6:32 PM Apr 9th, 2009

jasonatennui @t_kawai @svgrob The McGriddle is a sandwich made out of synthetic pancakes injected with syrup. It HAS to cause cancer. #DCTH -6:32 PM Apr 9th, 2009

madbrad @bluewavemedia TY :-) So like Formmail from tectite, is no good to use? #DCTH -6:31 PM Apr 9th, 2009

g33kguy @madbrad We've used various forms depending on what the client requires. Some populate a database and some don't (straight to email). #dcth -6:31 PM Apr 9th, 2009

svgrob @creativecurio Freelance, coz thats me baby yea! lol #dcth -6:31 PM Apr 9th, 2009
