[cnc137](#) [@mikeconaty](#) I have been using Dropbox a lot lately also. It works great for keeping files up-to-date on my desktop, laptop, & netbook. [#DCTH](#) -8:34 PM Jul 1st, 2010

[mikeconaty](#) [@tkawaidesign](#) You don't have to go home, but you can't stay here. :-)

[azzcatdesign](#) [@tkawaidesign](#) lol! [#dcth](#) -8:33 PM Jul 1st, 2010

[azzcatdesign](#) [@mikeconaty](#) It began as a PC app. Snag-it. Mac beta is still free!
[#dcth](#) -8:33 PM Jul 1st, 2010

[tkawaidesign](#) It's last call already?! [#OhWaitItsNotABar](#) [#dcth](#) -8:33 PM Jul 1st, 2010

[mikeconaty](#) [@azzcatdesign](#) Like I said, I'm not a cool kid (no Mac here) :-} [#DCTH](#) -8:32 PM Jul 1st, 2010

[azzcatdesign](#) Bye, Everyone! Wine-o'clock on west coast now! [#dcth](#) -8:32 PM Jul 1st, 2010

[majesticjess](#) Bye all - thanks for all your help with my Q. [#dcth](#) -8:32 PM Jul 1st, 2010

[cnc137](#) [@mikeconaty](#) [#Q7](#) I also used Dropbox to share photos I took for a client using the built-in photo gallery. [#DCTH](#) -8:32 PM Jul 1st, 2010

[martinluff](#) [#Q7](#) also straight PDF for design proofs - using free tool like Nitro, client can add notes/highlights etc. [#DCTH](#) -8:32 PM Jul 1st, 2010

[majesticjess](#) Oh yeah - I've used Box.net for that too. RT [@mikeconaty](#): [#Q7](#) I've also used Dropbox and sent them a link to download it. [#dcth](#) -8:32 PM Jul 1st, 2010

[imaginif](#) [@martinluff](#) thanks you too! [#dcth](#) -8:32 PM Jul 1st, 2010

[DCTH](#) Alright that's time! Thanks to all for another great (API limited) [#DCTH](#). Transcripts will be up shortly! 'night all! [#DCTH](#) -8:31 PM Jul 1st, 2010

[azzcatdesign](#) [@mikeconaty](#) I've got DB full with my own stuff. Snag-it beta Mac is pretty neat for short grabs and notes. Better than Acrobat! [#dcth](#) -8:31 PM Jul 1st, 2010

[imaginif](#) quick answer to [#Q7](#) before I bolt. We have a client section on our server that we use for comps, videos etc. and Dropbox for scripts [#dcth](#) -8:31 PM Jul 1st, 2010

[martinluff](#) [#Q7](#) I've used creately.com (does wireframes/flow diagrams too, plus clients can add comments) [#DCTH](#) -8:31 PM Jul 1st, 2010

[azzcatdesign](#) [#Q7](#) Dribbble is cool, but I don't have much at this stage to show that's not done or visually cool. CSS looks...dull! [#dcth](#) -8:29 PM Jul 1st, 2010

[mikeconaty](#) [#Q7](#) If it's a large graphic file or short video, I've also used Dropbox and sent them a link to download it. [#DCTH](#) -8:29 PM Jul 1st, 2010

[tkawaidesign](#) [@mikeconaty](#) Hahaha I gotta do it somewhere though right? :P [#dcth](#) - 8:29 PM Jul 1st, 2010

[martinluff](#) [@imaginif](#) - bye ;) Have a great week... [#DCTH](#) -8:28 PM Jul 1st, 2010

[azzcatdesign](#) [#Q7](#) I also signed up for GetSignOff. Again, not yet used! [#dcth](#) -8:28 PM Jul 1st, 2010

[mikeconaty](#) [@tkawaidesign](#) For shame Tomo! Exposing yourself on FB! :-D [#DCTH](#) - 8:28 PM Jul 1st, 2010

[majesticjess](#) [@azzcatdesign](#) LOL I knew. And you're right. [#dcth](#) -8:28 PM Jul 1st, 2010

[cnc137](#) [@DCTH](#) [#Q7](#) I forgot that I have used Flickr and TwitPic to get a few things online quickly to share. [#DCTH](#) -8:28 PM Jul 1st, 2010

[tkawaidesign](#) [@azzcatdesign](#) Lucky! [#dcth](#) -8:28 PM Jul 1st, 2010

[rosalindwills](#) [@azzcatdesign](#) Oh, congrats!!! =D [#dcth](#) -8:28 PM Jul 1st, 2010

[azzcatdesign](#) [@majesticjess](#) "they" [#dcth](#) -8:27 PM Jul 1st, 2010

[tkawaidesign](#) [#Q7](#) Oh, and I sometimes use facebook to expose it to my non-designer friends. [#dcth](#) -8:27 PM Jul 1st, 2010

[azzcatdesign](#) [#Q7](#) I got on Dribbble, but no invites to give out yet! [#dcth](#) -8:27 PM Jul 1st, 2010

[tkawaidesign](#) [#Q7](#) I use Tumblr, but I'm in the process of moving it all into WP. I reeeeaally want a Dribbble invite though... [#dcth](#) -8:26 PM Jul 1st, 2010

[azzcatdesign](#) [@majesticjess](#) Because the CAN! [#dcth](#) -8:26 PM Jul 1st, 2010

[rosalindwills](#) [#Q7](#) I found conceptfeedback.com very helpful; I'd love to get on Dribbble but haven't gotten nerve to bug anyone for an invite yet. =P [#DCTH](#) -8:26 PM Jul 1st, 2010

[azzcatdesign](#) [#Q7](#) I signed up for client show, but haven't used it yet. Dribbble is for fun, not clients [#dcth](#) -8:26 PM Jul 1st, 2010

[cnc137](#) [@DCTH](#) [#Q7](#) Haven't shared anything beyond what's in my portfolio yet. Thought about using Dribbble, but don't have an invite. :([#DCTH](#) -8:26 PM Jul 1st, 2010

[mikeconaty](#) [#Q7](#) Good old-fashioned loading the comps onto my own server... but then again, I'm not one of the cool kids. :-) [#DCTH](#) -8:25 PM Jul 1st, 2010

[majesticjess](#) [@azzcatdesign](#) Yeah that irked me as well. I kept wanting to ask "But, WHY?" [#dcth](#) -8:25 PM Jul 1st, 2010

[majesticjess](#) [#Q7](#) - I've used ProofHQ - \$17 bucks a month. It's pretty cool. Never heard of Dribbble - I'll check 'em out! [#dcth](#) -8:25 PM Jul 1st, 2010

[azzcatdesign](#) [@majesticjess](#) I still send the contract & bid. Won't do anything beyond it. They pay retainer and final w/o issue. But it DOES irk me! [#dcth](#) -8:24 PM Jul 1st, 2010

[cjgraphix](#) [#dcth](#) [#q6](#) Add a note to the final invoice that payment is acceptance of job completion / approval. -8:24 PM Jul 1st, 2010

[imaginif](#) gotta run, have a good night all. Glad I stumbled in here, big thanks to [@curiousit](#) for posting [#dcth](#) -8:23 PM Jul 1st, 2010

[DCTH #Q7](#) (via [@robbmajor](#)) What's your fav. way to quickly & easily share designs online? Posterous, Dribbble? What do the cool kids use? [#DCTH](#) -8:23 PM Jul 1st, 2010

[majesticjess](#) [@azzcatdesign](#) Well I agree - 1 is ok, I guess. [#dcth](#) -8:23 PM Jul 1st, 2010

[azzcatdesign](#) [@ngassmann](#) [@seebrowntweet](#) bye! [#dcth](#) -8:23 PM Jul 1st, 2010

[mikeconaty](#) [@ngassmann](#) Thanks Nick, have a good rest of the night! [#DCTH](#) -8:22 PM Jul 1st, 2010

[majesticjess](#) [#Q5](#) I wrote a blog post about that a few months back, actually - <http://www.majesticmd.com/2010/03/mixingbizwpleasure/> [#dcth](#) -8:22 PM Jul 1st, 2010

[azzcatdesign](#) [@seebrowntweet](#) Yep. Municipal client. Print work. Once it's @ printer, done, billed, over. [#dcth](#) -8:22 PM Jul 1st, 2010

[seebrowntweet](#) [#dcth](#) well, i'll see everyone later. good chat tonight. :) -8:22 PM Jul 1st, 2010

[ngassmann](#) [#dcth](#) catch you next time folks. hopefully you all got a little something from my questions. Have a great holiday! -8:21 PM Jul 1st, 2010

[seebrowntweet](#) [@azzcatdesign](#) Oh, yes, I work for a univ. and they have that policy. That would be the only way I'd do that either. [#dcth](#) -8:21 PM Jul 1st, 2010

[mikeconaty](#) [@tkawaidesign](#) [@azzcatdesign](#) CYA at all times. :-)) That leaves them to either sign approval or at least engage in why they won't sign [#DCTH](#) -8:20 PM Jul 1st, 2010

[majesticjess](#) Agree! thx. RT [@tkawaidesign](#): [@mikeconaty](#) Good call Mike, that'll cover the bases just in case they want free revisions down the road. [#dcth](#) -8:20 PM Jul 1st, 2010

[seebrowntweet](#) woah, hello. wouldn't have...been a long week. grammar not toooo good tonight. [#dcth](#) -8:19 PM Jul 1st, 2010

[tkawaidesign](#) [@mikeconaty](#) Good call Mike, that'll cover the bases just in case they want free revisions down the road. [#dcth](#) -8:19 PM Jul 1st, 2010

[azzcatdesign](#) RT [@mikeconaty](#): [#Q6](#) follow up with a letter/note/email expressing that final payment has been received & you consider the job finished [#dcth](#) -8:19 PM Jul 1st, 2010

[azzcatdesign](#) [#Q6](#) I have 1 client who won't sign the contract b/c of their legal dept's stance-they always pay & follow specs. Only 1 I'll allow! [#dcth](#) -8:18 PM Jul 1st, 2010

[majesticjess](#) [#Q6](#) - I was totally shocked. I asked why and my contact said they didn't see a need for both. Um, ok... [#dcth](#) -8:18 PM Jul 1st, 2010

[mikeconaty](#) [#Q6](#) I'd follow up with a letter/note/email expressing that final payment has been received & you consider the job finished despite it [#DCTH](#) -8:18 PM Jul 1st, 2010

[seebrowntweet](#) I don't use approval forms, just contract, so work would haven't been done w/o agreement on proofs/deliverables beforehand. [#dcth](#) [#q6](#) -8:18 PM Jul 1st, 2010

[imaginif](#) [#Q6](#) final payment is approval at job completion [#dcth](#) -8:18 PM Jul 1st, 2010

[ngassmann](#) [#q6](#) [#dcth](#) I hope I never come across that, but that looks like a sign of wanting free changes later. -8:17 PM Jul 1st, 2010

[martinluff](#) [#Q5](#) ...otherwise I find I let things drift more than with other clients - relying on the friendship to compensate (v. bad idea) [#DCTH](#) -8:16 PM Jul 1st, 2010

[tkawaidesign](#) [#Q6](#) Eh, if I got paid, I can live without a signed approval form. The payment sort of doubles as the approval I suppose. [#dcth](#) -8:16 PM Jul 1st, 2010

[martinluff](#) [#Q5](#) - have contract; in my case so I don't treat them any different and give same level of service with regard to work... [#DCTH](#) -8:16 PM Jul 1st, 2010

[tkawaidesign](#) [#Q5](#) Did work for a few friends and just skipped the contract since I know where they live haha. [#dcth](#) -8:15 PM Jul 1st, 2010

[DCTH](#) [#Q6](#) (via [@majesticjess](#)) What if a client is willing to give you a final payment but refuses to sign an approval form? No reason why! [#DCTH](#) -8:14 PM Jul 1st, 2010

[seebrowntweet](#) I've turned down friends wanting services at this point. Honestly, it's too much work/ruins friendship. Close fam, no contr. [#dcth](#) [#q5](#) -8:14 PM Jul 1st, 2010

[imaginif](#) [@kristofcreative](#) have a good night [#dcth](#) -8:14 PM Jul 1st, 2010

[imaginif](#) [#Q5](#) no contract, I know where they live ;) [#dcth](#) -8:13 PM Jul 1st, 2010

[azzcatdesign](#) [@kristofcreative](#) Bye! [#dcth](#) -8:12 PM Jul 1st, 2010

[majesticjess](#) [#Q5](#) Parents get no contract, everyone else gets one. Most of the time they're very good clients, and very supportive afterwards. [#dcth](#) -8:11 PM Jul 1st, 2010

[martinluff](#) [@majesticjess](#) aye LOL [#DCTH](#) -8:11 PM Jul 1st, 2010

[rosalindwills](#) [#Q5](#) I tend to just do it and consider it practice, though I tend to structure those which are for pay a bit more closely. [#dcth](#) -8:11 PM Jul 1st, 2010

[kristofcreative](#) Jumping off - have a great night DCTH [#dcth](#) -8:11 PM Jul 1st, 2010

[martinluff](#) [@MillerMosaicLLC](#) - true. By contrast ExpressionEngine 2.0 beta available to devs for over a year but many add-ons still not converted [#DCTH](#) -8:10 PM Jul 1st, 2010

[majesticjess](#) [@martinluff](#) OY! [#dcth](#) -8:10 PM Jul 1st, 2010

[azzcatdesign](#) [@DCTH](#) [#Q5](#) Contract. I offer reduced rate, but still CONTRACT! [#dcth](#) -8:09 PM Jul 1st, 2010

[ngassmann](#) [#dcth](#) [#q5](#) contracts if they're paying me. An "understanding" if it's a free job. -8:09 PM Jul 1st, 2010

[mikeconaty](#) This Twitter API limit is quickly turning this discussion into a big bucket of [#FAIL](#) :: sigh:: [#DCTH](#) -8:09 PM Jul 1st, 2010

[cnc137](#) [@kristofcreative](#) [@martinluff](#) [@mikeconaty](#) Glad to hear it went smoothly for you. Makes me a little less nervous now. [#DCTH](#) -8:09 PM Jul 1st, 2010

[martinluff](#) [@majesticjess](#) - indeed... I'm just on govt project where they want stuff designed for their 800x600 displays! [#DCTH](#) -8:08 PM Jul 1st, 2010

[DCTH](#) [#Q5](#) (via [@ngassmann](#)) Work for families or friends, have them sign a contract or do it knowing they are likely red flag clients? [#DCTH](#) -8:07 PM Jul 1st, 2010

[MillerMosaicLLC](#) [@martinluff](#) They probably had a long beta and RC time for probably that reason. [#DCTH](#) -8:07 PM Jul 1st, 2010

[kristofcreative](#) [#Q5](#) I do it w/ clear understanding that they'll accept and use whatever I give them [#dcth](#) -8:06 PM Jul 1st, 2010

[MillerMosaicLLC](#) [@martinluff](#) They currently had a long beta and RC time for probably that reason. [#DCTH](#) -8:06 PM Jul 1st, 2010

[majesticjess](#) [@martinluff](#) This is why I like to be in charge of everything for a client. But government agencies can be stubborn. :) [#dcth](#) -8:06 PM Jul 1st, 2010

[MillerMosaicLLC](#) Q on the PHP5 issue. Isn't that a concern for a web host not you? [#DCTH](#) -8:06 PM Jul 1st, 2010

[martinluff](#) [@cnc137](#) - but seems like WP probably better than most this time round... not too many things break? [#DCTH](#) -8:05 PM Jul 1st, 2010

[martinluff](#) [@majesticjess](#) - wow, that is an antiquated host indeed... [#DCTH](#) -8:05 PM Jul 1st, 2010

[martinluff](#) [@cnc137](#) - yes, I think that's a pretty common problem across all CMS when major upgrade comes along... [#DCTH](#) -8:04 PM Jul 1st, 2010

[mikeconaty](#) [@cnc137](#) I had that same worry, but the 1 site that was "likely to fail" with too many plugins was just fine. [#DCTH](#) -8:03 PM Jul 1st, 2010

[majesticjess](#) [@martinluff](#) You said it! It's not the client, it's their antiquated host company, they think they have to update every customer. [#dcth](#) -8:03 PM Jul 1st, 2010

[kristofcreative](#) [@cnc137](#) If it helps, I didn't have one plugin break. *You're mileage may vary [#dcth](#) -8:03 PM Jul 1st, 2010

[alanhouser](#) [@DCTH](#) Q4 I updated client sites with my monthly "backup/update dance". One of many reasons I'm married to Squarespace— the cloud. [#dcth](#) -8:03 PM Jul 1st, 2010

[martinluff](#) [@majesticjess](#) - clients not upgraded to PHP5 must be getting quite rare now? [#DCTH](#) -8:02 PM Jul 1st, 2010

[cnc137](#) [@DCTH](#) [#Q4](#) The only concern I have is related to different plugins being compatible with WordPress 3.0 that I am using on client sites. [#DCTH](#) -8:02 PM Jul 1st, 2010

[kristofcreative](#) RT [@kg_creative](#) I try & get to bottom of why they're requesting changes. Usually it's a business need that can be met another way [#Q3](#) [#dcth](#) -8:01 PM Jul 1st, 2010

[majesticjess](#) [#Q4](#) I love Wordpress 3.0! One issue: Breadcrumb Nav XT - I have a client that won't upgrade to PHP5 so it's now broken. Their loss. [#dcth](#) -8:01 PM Jul 1st, 2010

[azzcatdesign](#) [#Q4](#) I really like how you can batch upgrade plugins. [#dcth](#) -8:00 PM Jul 1st, 2010

[MillerMosaicLLC](#) I did 2 upgrades so far. One for a [#genesiswp](#) and one for a [#thesiswp](#) No problems [#DCTH](#) -8:00 PM Jul 1st, 2010

[rosalindwills](#) [@azzcatdesign](#) LOL! That makes me feel better... =D [#dcth](#) -8:00 PM Jul 1st, 2010

[tkawaidesign](#) [#Q4](#) I upgraded, but I don't really have much in there for it to mess up. haha [#dcth](#) -8:00 PM Jul 1st, 2010

[kg_creative](#) [@DCTH](#) I try and get at the bottom of why they are requesting changes. Usually it's a business need that can be met another way [#Q3](#) [#DCTH](#) -8:00 PM Jul 1st, 2010

[mikeconaty](#) [#Q4](#) Updated 3 WP installs so far, only one minor issue with a gallery plugin that was easily fixed. [#DCTH](#) -7:59 PM Jul 1st, 2010

[imaginif](#) [#Q4](#) did a fresh install for new client but no upgrade yet. on the list... hoping the plugins will be upgraded as well [#dcth](#) -7:59 PM Jul 1st, 2010

[tkawaidesign](#) [@rosalindwills](#) Haha I'm in the same boat as you. I started playing with WP three weeks before 3.0 came out.. [#dcth](#) -7:59 PM Jul 1st, 2010

[kristofcreative](#) [@azzcatdesign](#) LOL! [#dcth](#) -7:59 PM Jul 1st, 2010

[azzcatdesign](#) [@rosalindwills](#) (shhh...neither do I) [#dcth](#) -7:59 PM Jul 1st, 2010

[kristofcreative](#) What she said -> [@majesticjess](#) [@azzcatdesign](#) [#dcth](#) -7:59 PM Jul 1st, 2010

[gabediaz](#) [#Q4](#) Was running the beta release candidate fine, full WP3.0 works nicely no issues upgrading [#dcth](#) -7:59 PM Jul 1st, 2010

[rosalindwills](#) [#Q4](#) Bah...I still don't understand everything that WP2 does. =P I probably should go in and upgrade though. [#dcth](#) -7:58 PM Jul 1st, 2010

[ngassmann](#) [@mikeconaty](#) [#dcth](#) lol. Agreed -7:58 PM Jul 1st, 2010

[azzcatdesign](#) *Squawk* RT [@kristofcreative](#): [#Q4](#) Upgrading to WP 3.0 was a snap - no problems whatsoever [#knockonwood](#) [#dcth](#) -7:58 PM Jul 1st, 2010

[imaginif](#) [#Q3](#) making the client happy is job number 1, so first try and "nicely

educate" but bottom line is they have to like it. [#dcth](#) [#dcth](#) -7:58 PM Jul 1st, 2010

[ngassmann](#) [#dcth](#) [#q4](#) Yes and only one problem with a jquery script and the updated version of jquery. -7:58 PM Jul 1st, 2010

[gabediaz](#) [#Q3](#) Rules can be broken at times but more often than not educating client can help ease the situation if it's a wild request [#dcth](#) -7:58 PM Jul 1st, 2010

[kristofcreative](#) [@azzcatdesign](#) I think I just parroted you ;) [#dcth](#) -7:54 PM Jul 1st, 2010

[majesticjess](#) [#Q3](#) - I try not to, but rather try to educate on the design process. It doesn't always work though. [#dcth](#) -7:54 PM Jul 1st, 2010
