[scottsampson](#) [@Will_Powered](#) Enjoy the rest of your day mate. Been a pleasure [#EDCTH](#) -5:08 PM Jul 22nd, 2010

[Will_Powered](#) Time to close up some projects before the end of the day. Great talking to ya! [#EDCTH](#) -5:07 PM Jul 22nd, 2010

[scottsampson](#) [@Will_Powered](#) I've tried learning, I just can't get to grips with it lol. To me, beautiful code is far more artistic anyway :) [#EDCTH](#) -5:04 PM Jul 22nd, 2010

[Will_Powered](#) [@scottsampson](#) Haha I've still got a long way to go design-wise, but the folks who focus on design here are really great at teaching. [#EDCTH](#) -5:03 PM Jul 22nd, 2010

[scottsampson](#) [@Will_Powered](#) So a devigner as opposed to a deseloper lol. I'm purely dev. I can't design for monkeys. [#EDCTH](#) -5:01 PM Jul 22nd, 2010

[Will_Powered](#) [@scottsampson](#) At my agency we all work with both. I specialize in development, but its my job to learn design to compliment it. [#EDCTH](#) -5:00 PM Jul 22nd, 2010

[Will_Powered](#) Took courses in college and was really inspired by the mix of coding and design; its the only job that doesn't feel like work. [#EDCTH](#) -4:59 PM Jul 22nd, 2010

[scottsampson](#) [@Will_Powered](#) So are you a designer or a developer? or a bit of both? [#EDCTH](#) -4:59 PM Jul 22nd, 2010

[DCTH](#) [#EDCTH](#) sessions are at 20:00-21:30 GMT. There is another session ([#dcth](#)) at 19:00-20:30 EST. Great chat this week, see you next time? [#edcth](#) -4:58 PM Jul 22nd, 2010

[Will_Powered](#) [@scottsampson](#) Was always good at math & art. Tried architecture, tried software programming, tried studio art... couldn't dig it. [#EDCTH](#) -4:58 PM Jul 22nd, 2010

[madambeauregard](#) well here I am, package designer from Vancouver, BC. 10 + years in the making. been creative all my life. can't work without it [#edcth](#) -4:56 PM Jul 22nd, 2010

[madambeauregard](#) ah, good tips, thanks! LOL! [#edcth](#) -4:55 PM Jul 22nd, 2010

[scottsampson](#) OK, how bout this: Why did you become a developer/designer/creative? What prompted you to get into the industry? [#EDCTH](#) -4:54 PM Jul 22nd, 2010

[madambeauregard](#) hi! first time at design chat. how does this work? [#edcth](#) -4:53 PM Jul 22nd, 2010

[scottsampson](#) [@Will_Powered](#) lol maybe... [#EDCTH](#) -4:53 PM Jul 22nd, 2010

[Will_Powered](#) Maybe we need a new question? :P [#EDCTH](#) -4:52 PM Jul 22nd, 2010

[scottsampson](#) Oh look - A tumbleweed! Has twitter gone screwy, or are we all too busy elsewhere? [#EDCTH](#) -4:51 PM Jul 22nd, 2010

[Will_Powered](#) [@divinefusion](#) I could see that working well [#EDCTH](#) -4:37 PM Jul 22nd, 2010

[divinefusion](#) Got a response from [@jhoysi](#) : Horiz would also be great for mobile versions with touch screens. It's becoming a natural motion. [#eDCTH](#) -4:34 PM Jul 22nd, 2010

[tomsturge](#) [@svgrob](#) For the web. But we read left to right and old media is scanned left to right (magazines etc.). What are people more used to? [#edcth](#) -4:33 PM Jul 22nd, 2010

[divinefusion](#) [@Will_Powered](#) true that:) [#EDCTH](#) -4:33 PM Jul 22nd, 2010

[svgrob](#) [@divinefusion](#) I agree with [@Will_Powered](#) - down/up is too natural :) [#EDCTH](#) -4:31 PM Jul 22nd, 2010

[Will_Powered](#) [@divinefusion](#) Some Joe-Bobs will love being educated, but you'll lose those who don't. You can't afford to tick off visitors. [#EDCTH](#) -4:27 PM Jul 22nd, 2010

[scottsampson](#) [@kristofcreative](#) lol I agree, it's actually quite an informative site. Been some interesting articles on there. [#EDCTH](#) -4:26 PM Jul 22nd, 2010

[scottsampson](#) [@divinefusion](#) The average Joe-bob doesn't want educating - they just click the big E on their pc, and use google to surf :P [#EDCTH](#) -4:25 PM Jul 22nd, 2010

[kristofcreative](#) [@ScottSampson](#) Oh no, can't take any credit from them. [#EDCTH](#) -4:25 PM Jul 22nd, 2010

[divinefusion](#) [@Will_Powered](#) what about edumacating Joe-Bob? [#can'tgeteverythingonaplatter](#) [#eDCTH](#) -4:24 PM Jul 22nd, 2010

[Will_Powered](#) It breaks navigation paradigms. It might be awesome looking, but its going to take longer for regular user Joe-Bob to figure it out. [#EDCTH](#) -4:22 PM Jul 22nd, 2010

[scottsampson](#) [@kristofcreative](#) Another one of yours Kristof? lol [#EDCTH](#) -4:21 PM Jul 22nd, 2010

from the bottom instead of the side. There are exceptions though [#EDCTH](#) -4:16 PM Jul 22nd, 2010

[divinefusion](#) [@tomsturge](#) great, just signed a nice job, so [@svgrob](#) and I have some
husslin' to do ;) [#edcth](#) -4:16 PM Jul 22nd, 2010

love or hate? [#eDCTH](#) -4:14 PM Jul 22nd, 2010

[scottssampson](#) [@kristofcreative](#) how come you've got .co listed under the "americas"
list of domains? Surely it'd be under the "general" heading? [#EDCTH](#) -4:14 PM Jul 22nd, 2010

[tomsturge](#) [@divinefusion](#) Superb! How's it with you? [#edcth](#) -4:14 PM Jul 22nd, 2010

[scottsampson](#) [@kristofcreative](#) that's actually a really good idea [#EDCTH](#) -4:02 PM Jul 22nd, 2010

[tomsturge](#) [@scottsampson](#) Betteringthe.web [#edcth](#) -4:02 PM Jul 22nd, 2010

[scottsampson](#) [@tomsturge](#) lol that'd probably point to deviant art or something! [#EDCTH](#) -4:02 PM Jul 22nd, 2010

[svgrob](#) [@tomsturge](#) OK now that IS too long lol [#EDCTH](#) -4:01 PM Jul 22nd, 2010

[scottsampson](#) as in designingthe.web [#EDCTH](#) -4:01 PM Jul 22nd, 2010

[scottsampson](#) or how about .web - limited to those of us in the profession? [#EDCTH](#) -4:01 PM Jul 22nd, 2010

[tomsturge](#) [@scottsampson](#) In context. <http://heyyou.lookatmyawesomeportfolio#edcth> -4:00 PM Jul 22nd, 2010

[kristofcreative](#) [@tomsturge](#) Could simplify it - just implement extension as domain .cocacola. Would give authority to trademarked names [#EDCTH](#) -4:00 PM Jul 22nd, 2010

[scottsampson](#) [@tomsturge](#) hahaha sounds like something a teenager would use! .imakezwebz [#EDCTH](#) -4:00 PM Jul 22nd, 2010

[svgrob](#) [@scottsampson](#) yea that would be great hahah :) [#EDCTH](#) -4:00 PM Jul 22nd, 2010

[tomsturge](#) [@scottsampson](#) .lookatmyawesomeportfolio? [#edcth](#) -3:59 PM Jul 22nd, 2010

[scottsampson](#) [@svgrob](#) aye, but think of the URL web.design - talk about keyword heavy lol [#EDCTH](#) -3:59 PM Jul 22nd, 2010

[bullfrogmedia](#) RT [@kristofcreative](#): If nothing else, owning the .co version will keep other's from trying to hijack your traffic - but cost shld be lower [#EDCTH](#) -3:59 PM Jul 22nd, 2010

[svgrob](#) [@scottsampson](#) lol longish though? [#EDCTH](#) -3:58 PM Jul 22nd, 2010

[tomsturge](#) [@kristofcreative](#) With restriction of course. Like a letter limit maybe, I'll make a proper plan of implementation and submit the idea [#edcth](#) -

3:58 PM Jul 22nd, 2010

[scottsampson](#) I call for a .design TLD :D [#EDCTH](#) -3:57 PM Jul 22nd, 2010

[kristofcreative](#) [@tomsturge](#): .(your choice) is interesting - could end up with domains like coca.cola - but would be almost impossible to map [#EDCTH](#) -3:56 PM Jul 22nd, 2010

[tomsturge](#) [@Will_Powered](#) I meant that =O) [#edcth](#) -3:56 PM Jul 22nd, 2010

[scottsampson](#) [@Will_Powered](#) a likely story.... lol [#EDCTH](#) -3:56 PM Jul 22nd, 2010

[Will_Powered](#) [@tomsturge](#) Haha I was thinking easier to avoid them - you'd never be "surprised" by it while looking for something mundane. [#EDCTH](#) -3:55 PM Jul 22nd, 2010

[scottsampson](#) [@tomsturge](#) now that's a neat idea - Not very likely unfortunately, but neat. [#EDCTH](#) -3:54 PM Jul 22nd, 2010

[kristofcreative](#) Trying to find a short original URL these days is crazy hard. Ppl end up having to buy a 3-4 word domain name [#EDCTH](#) -3:54 PM Jul 22nd, 2010

[tomsturge](#) [@Will_Powered](#) Easier for the blockers to find them (bad point), easier to find the porn (good point) [#edcth](#) -3:54 PM Jul 22nd, 2010

[scottsampson](#) [@kristofcreative](#) That's a fact. I think the cost is ridiculous. But then so's the cost of a .com in comparison to a .co.uk etc [#EDCTH](#) -3:53 PM Jul 22nd, 2010

[Will_Powered](#) [@tomsturge](#) I think adding .xxx wont be worth it unless porn sites are restricted to the TLD - which would be impossible to enforce [#EDCTH](#) -3:53 PM Jul 22nd, 2010

[tomsturge](#) .(your choice) would be great. A dynamic TLD scheme so you can have a

really custom URL [#edcth](#) -3:52 PM Jul 22nd, 2010

[kristofcreative](#) If nothing else, owning the .co version will keep other's from trying to hijack your traffic - but cost shld be lower [#EDCTH](#) -3:52 PM Jul 22nd, 2010

[scottsampson](#) [@kristofcreative](#) IMHO, it's just a means to cash in. And as has already been said, it feels like there's something missing from it [#EDCTH](#) -3:52 PM Jul 22nd, 2010

[kristofcreative](#) [@scottsampson](#) The .com does 2 things; creates new monetary option of domain registrar and gives biz option to get shorter URL [#EDCTH](#) -3:51 PM Jul 22nd, 2010

[scottsampson](#) [@svgrob](#) Alas no. I much prefer luncheon meat [#EDCTH](#) -3:51 PM Jul 22nd, 2010

[tomsturge](#) I think the .xxx domain is a good idea. If only the porn sites would pick it up [#edcth](#) -3:51 PM Jul 22nd, 2010

[scottsampson](#) [@tomsturge](#) Aye that's a valid point lol. It's all about the \$\$\$\$EE\$\$\$ [#EDCTH](#) -3:51 PM Jul 22nd, 2010
