TweetChat #DCTH - 08/26/10

azzcatdesign **@martinluff** You crack me up, Martin! Take care! **#dcth** -8:52 PM Aug 26th, 2010

martinluff Hibye everyone… **#DCTH** -8:51 PM Aug 26th, 2010

martinluff **@azzcatdesign** - probably no more than you are ;) **#DCTH** -8:51 PM Aug 26th, 2010

jesskupferman [LOL] RT **@azzcatdesign**: **@jesskupferman** hibye! **#DCTH** -8:50 PM Aug 26th, 2010

azzcatdesign **@martinluff** forgot…you're a developer! ;-) **#dcth** -8:50 PM Aug 26th, 2010

107designs **@DCTH** No CDs or DVDs, but I do have an external RAID1 drive. 2TB! :) **#dcth** -8:50 PM Aug 26th, 2010

**azzcatdesign** **@jesskupferman** hibye! **#dcth** -8:49 PM Aug 26th, 2010

azzcatdesign **@martinluff** Me, either! **#dcth** -8:49 PM Aug 26th, 2010

martinluff **@azzcatdesign** - half terabyte - have good file structure and search tool that finds things realtime… **#DCTH** -8:49 PM Aug 26th, 2010

azzcatdesign **@DCTH** Adios! It was special to have Twitter cooperate today! Missed you all! **#dcth** -8:49 PM Aug 26th, 2010

jesskupferman I can't believe I missed the whole thing. Hi and bye! Sorry. :(**#DCTH** -8:49 PM Aug 26th, 2010

martinluff **@DCTH** - stacks of DVDs here - but don't trust longevity… Still better than HD life though! **#DCTH** -8:48 PM Aug 26th, 2010

azzcatdesign **@DCTH** I have, but not recently. Using Mozy to b/u my desktop. Then I have an offsite copy. **#dcth** -8:48 PM Aug 26th, 2010

DCTH I was so enthralled reading answers that I missed the cut-off! Glad everyone had fun tonight :) See you next week? **#dcth** -8:48 PM Aug 26th, 2010

azzcatdesign @martinluff Ewww…sorting nightmare! How big is the drive? #dcth - 8:48 PM Aug 26th, 2010

DCTH Does anyone burn archives to CDs? #dcth -8:47 PM Aug 26th, 2010

martinluff @marybdesign - most stuff almost indefinitely here… but I did notice I now have 1.6 million files on my laptop! #DCTH -8:47 PM Aug 26th, 2010

azzcatdesign #Q6 Not much point in saving really old files (7+ yrs). Figure I won't be able to open them after 2 or 3 upgrades. #dcth -8:46 PM Aug 26th, 2010

azzcatdesign #Q6 I use 'smart folders' in Mac mail. Will move folders to inactive/ archive after ~2 years of no activity. All depends. #dcth -8:45 PM Aug 26th, 2010

DCTH RT @marybdesign: where and how long do you keep an approval and all the documents associated with a particular job? #dcth -8:44 PM Aug 26th, 2010

marybdesign where and how long do you keep an approval and all the documents associated with a particular job? #dcth -8:43 PM Aug 26th, 2010

azzcatdesign @107designs That works. I use YouSendIt for FTP stuff. Works well w/ some clients who have limits on jpg file types. #dcth -8:43 PM Aug 26th, 2010

107designs @azzcatdesign In those cases I still use email for the approval, but the email has a link to the file instead of an attachment #dcth -8:41 PM Aug 26th, 2010

azzcatdesign @mikeconaty ROFL #dcth -8:40 PM Aug 26th, 2010

ngassmann @DCTH #q5 #dcth although I have used proof hq -8:39 PM Aug 26th, 2010

**azzcatdesign** @107designs Yes! Had one client ask me to 'return' to that. Totally depends on file size/type, though. #dcth -8:39 PM Aug 26th, 2010

ngassmann @DCTH #q5 #dcth approval all through e-mail unless signature required. -8:39 PM Aug 26th, 2010

martinluff #Q5 - quite often find I'm using whatever client is used to rather than own pref. Includes Dropbox, FTP, Google Docs/Apps, Email… #DCTH -8:39 PM Aug 26th, 2010
mikeconaty @azzcatdesign :-) PC load letter!?!?! What the hell is that supposed to mean!?!?! #DCTH -8:39 PM Aug 26th, 2010

azzcatdesign **#Q5** I've used this new app: http://prevue.it/ FTP for big PDFs (multi-page stuff) **#dcth** -8:38 PM Aug 26th, 2010

107designs **@DCTH** **#Q5** Depends on the client. Old-skool email msgs with "action required" seem to be universally understood though ;) **#dcth** -8:38 PM Aug 26th, 2010

azzcatdesign **@mikeconaty** Right! And you can never count on a printer in the clutch! **#dcth** -8:37 PM Aug 26th, 2010

azzcatdesign **@marybdesign** lol! **#dcth** -8:37 PM Aug 26th, 2010

DCTH **#Q5** Approval process? Sent via email? Dropbox? FTP? How do you share your files with your clients? **#dcth** -8:37 PM Aug 26th, 2010

azzcatdesign **@bluelm** Cool! Their vacuum problem, too! **#dcth** -8:36 PM Aug 26th, 2010

azzcatdesign **@martinluff** I like Balsamiq for wireframes. I send PDFs for mockups, too. **#dcth** -8:36 PM Aug 26th, 2010

bluelm **#Q4** **#dcth** I used to make mockups/foamcore all the time. So many in fact that Kinkos let me print/cut my own stuff for a reduced price!! -8:35 PM Aug 26th, 2010

marybdesign **@azzcatdesign** I'm calling webster! **#dcth** -8:35 PM Aug 26th, 2010

azzcatdesign I made this word up: staticee **#dcth** -8:34 PM Aug 26th, 2010

martinluff **#Q4** Creately for mockups, wireframes plus comps in PDF - client can print if need be but I don't usually send printouts. **#DCTH** -8:34 PM Aug 26th, 2010

marybdesign **@azzcatdesign** I'd rather use toothpaste :P **#dcth** -8:34 PM Aug 26th, 2010

107designs Yep. Most of my work is digital, too. => RT **@azzcatdesign**: **@ngassmann** Agree w/wireframes & mockups, but send digitally. **#dcth** -8:34 PM Aug 26th, 2010

mikeconaty **#Q4** Haven't used foamcore in years, and my printer only gets plugged in when needed - frees up a valuable USB port. :-) **#DCTH** -8:34 PM Aug 26th, 2010

marybdesign **@azzcatdesign** WERD! :P I hated when customers would call complaining about the color after they printed to their INK JET. **#dcth** -8:34 PM Aug 26th, 2010

azzcatdesign **@marybdesign** You can use little pieces to plug wall holes in rental apts…that, or toothpaste! #dcth -8:33 PM Aug 26th, 2010

azzcatdesign **@ngassmann** Agree w/wireframes & mockups, but send digitally. #dcth -8:32 PM Aug 26th, 2010

azzcatdesign #Q4 I don't print out unless requested. Too much explanation about color differences, etc. Not very useful for web layouts. #dcth -8:31 PM Aug 26th, 2010

azzcatdesign **@DCTH** I remember foam core…from another life! Now? No way! Beast to clean up the little staticee pieces! #dcth -8:30 PM Aug 26th, 2010

ngassmann #q4 #dcth Every client gets a wireframe, mockup and printed out copies for their records before any coding is ever done. -8:30 PM Aug 26th, 2010

marybdesign **@DCTH** foam core drives me nuts… #dcth -8:29 PM Aug 26th, 2010

azzcatdesign **@martinluff** :) #dcth -8:29 PM Aug 26th, 2010

azzcatdesign **@marybdesign** 4 sure! #dcth -8:29 PM Aug 26th, 2010

martinluff **@azzcatdesign** I believe it :) #DCTH -8:28 PM Aug 26th, 2010

DCTH #Q4 How many people make mock-ups and use foam core on a regular basis? Print-outs? #dcth -8:28 PM Aug 26th, 2010

marybdesign **@azzcatdesign** we wouldn't have to worry about carpal tunnel #dcth -8:28 PM Aug 26th, 2010

martinluff #Q3 of if they introduce something like 10gui http://10gui.com/ combined with touch screen; stick it on back of screen when not in use #DCTH -8:27 PM Aug 26th, 2010

azzcatdesign #Q3 Really, though…always worked best standing with my arms free to move. Might paint again, but on computer, then… #dcth -8:27 PM Aug 26th, 2010

marybdesign **@azzcatdesign** that would be amazing! #dcth -8:27 PM Aug 26th, 2010

**azzcatdesign** **@martinluff** **@mikeconaty** I am a design visionary! ;-) #dcth -8:26 PM Aug 26th, 2010

martinluff **@azzcatdesign** **#Q3** yes, that would be cool **#DCTH** -8:25 PM Aug 26th, 2010

mikeconaty **@azzcatdesign** That would be cool! **#DCTH** -8:25 PM Aug 26th, 2010

azzcatdesign **@martinluff** Yep. Join some user groups, too. Rub shoulders with others in the field. **#dcth** -8:24 PM Aug 26th, 2010

martinluff **@azzcatdesign** - then add new stuff from web/peers for up-to-date practicals... 2/2 **#DCTH** -8:24 PM Aug 26th, 2010

azzcatdesign **@107designs** I get finger cramps if I spend too much time on MacBook. Use Wacom on iMac. **#dcth** -8:24 PM Aug 26th, 2010

marybdesign **@mikeconaty** hahahaha yeah me and a classmate are looking into transferring in the spring. **#dcth** -8:23 PM Aug 26th, 2010

azzcatdesign **#Q3** Would really like one integrated into drafting-table style workstation. Then I could stand, not just sit at desk. **#dcth** -8:23 PM Aug 26th, 2010

martinluff **@azzcatdesign** - agree. Short focussed courses on things that don't change much (overall programming and design concepts) 1/2 **#DCTH** -8:23 PM Aug 26th, 2010

bluelm **#Q3** **#dcth** I LOVE sketching in Ideas on my wifes iPad. I LOVE the Magic trackpad for making my MacPro feel touch based. Combine the 2=heaven -8:23 PM Aug 26th, 2010

mikeconaty **@marybdesign** Oh my... you'd better dial up Compuserve and start your research on new schools. :-} **#DCTH** -8:22 PM Aug 26th, 2010

ngassmann **#dcth** **#q3** - I already have one. My 2yr old uses the touch screen to paint and play games. I only use it for fine photo retouching. -8:22 PM Aug 26th, 2010

azzcatdesign **#Q3** Not feeling the workstation yet...too pricy. But am thinking more and more about coding for touchscreen in CSS. **#dcth** -8:22 PM Aug 26th, 2010

marybdesign **@azzcatdesign** I hear you. **#dcth** -8:22 PM Aug 26th, 2010

107designs **#Q3** Good question. I have a hard time with a trackpad, but I could imagine using a stylus on a screen. **#dcth** -8:22 PM Aug 26th, 2010

marybdesign **@martinluff** started looking this week **#dcth** -8:21 PM Aug 26th, 2010

azzcatdesign **@marybdesign** WTF? They do NOT deserve your $$$$! #dcth -8:21 PM
Aug 26th, 2010

martinluff **@marybdesign** - get out of there! #DCTH -8:21 PM Aug 26th, 2010

azzcatdesign **@martinluff** Exactly! Maybe p/u the nuts and bolts online, etc. Pay for design theory, etc…the stuff that trains you to think! #dcth -8:20 PM Aug 26th, 2010

DCTH #Q3 Do you picture yourself designing/developing/being creative on a touch screen workstation? How soon will you be doing it? :D #dcth -8:20 PM Aug 26th, 2010

marybdesign **@azzcatdesign** well if this gives you an idea, the text for my "user centered design" class references Netscape… :-/ #dcth -8:20 PM Aug 26th, 2010

martinluff **@azzcatdesign** - no, REALLY! #DCTH -8:19 PM Aug 26th, 2010

martinluff **@azzcatdesign** **@marybdesign** - good question - I'm starting to question use of grad courses since field moving too fast… #DCTH -8:19 PM Aug 26th, 2010

azzcatdesign **@martinluff** sure, Martin! #dcth -8:18 PM Aug 26th, 2010
azzcatdesign **@mikeconaty** shhhhh! #dcth -8:17 PM Aug 26th, 2010

martinluff **@azzcatdesign** lakes of the stuff (and good too)! Not that I drink myself… #DCTH -8:17 PM Aug 26th, 2010

azzcatdesign **@marybdesign** So…how up-to-date are the web classes? #dcth -8:17 PM Aug 26th, 2010

mikeconaty **@azzcatdesign** Nice save. (But we know better) :-D #DCTH -8:17 PM Aug 26th, 2010

martinluff **@marybdesign** - OK, well if you're not getting on with staff AND it's costly then perhaps move is a good idea… #DCTH -8:16 PM Aug 26th, 2010

marybdesign **@azzcatdesign** undergrad #dcth -8:16 PM Aug 26th, 2010

azzcatdesign **@marybdesign** Are you in an undergraduate or grad program? #dcth -8:15 PM Aug 26th, 2010

azzcatdesign **@DCTH** For the record: I do more than drink wine! It's just good to know what's available in places I might live. ;-) #dcth -8:14 PM Aug 26th, 2010

marybdesign **@martinluff** it's not just the cost it's the teachers… #dcth -8:14 PM Aug 26th, 2010

azzcatdesign **@martinluff** is there wine! (I KNOW there is!) #dcth -8:13 PM Aug 26th, 2010

martinluff **@marybdesign** - if the school is providing what you need then I'd say stay - leave just due to cost would be such a pity? #DCTH -8:13 PM Aug 26th, 2010

azzcatdesign **@mikeconaty** lol! I'm totally hoping to work from anywhere I chose when school districts don't matter (and when my husband can, too!) #dcth -8:12 PM Aug 26th, 2010

marybdesign **@azzcatdesign** i'm thinking the same thing. I'm just starting to really get into the web classes and the teachers… there are no words #dcth -8:12 PM Aug 26th, 2010

martinluff **@mikeconaty** - OK. I do lot of work in UK and they've been hit hard. In NZ/Oz feels like we're a bit insulated so far… (room here too #DCTH -8:12 PM Aug 26th, 2010

**azzcatdesign** **@marybdesign** You're young and it's an investment. Hmm…different school might be helpful, though. #dcth -8:11 PM Aug 26th, 2010
mikeconaty **@azzcatdesign** I'll have to see if there's a wine cellar in my castle in Ireland. :-) #DCTH -8:11 PM Aug 26th, 2010
marybdesign **@azzcatdesign** I'm actually pondering changing schools cause of the cost. #dcth -8:10 PM Aug 26th, 2010

mikeconaty **@martinluff** Economics. #DCTH -8:10 PM Aug 26th, 2010

marybdesign **@azzcatdesign** not fun what so ever.. I was lucky and didn't have to take out loans… but this time I had to. #dcth -8:10 PM Aug 26th, 2010

azzcatdesign **@mikeconaty** I'm sure there's room in Tuscany. Bring some wine. ;-) #dcth -8:10 PM Aug 26th, 2010

martinluff **@mikeconaty** - why's that then? #DCTH -8:09 PM Aug 26th, 2010

azzcatdesign **@martinluff** Lucky Martin! #Q2 #dcth -8:09 PM Aug 26th, 2010

bluelm #dcth #Q2 - 5yrs ago, I didn't see me where I am now! Hope to be leading a creative arts ministry 'cause it would combine design and worship -8:08 PM Aug 26th, 2010

azzcatdesign @marybdesign Took me til age 30 for my own. #dcth -8:08 PM Aug 26th, 2010

mikeconaty #Q2 For the first time in my career, I really don't know… I know where I'd like to be, but not sure that will happen in 5 years. #DCTH -8:08 PM Aug 26th, 2010

marybdesign @azzcatdesign i want to throw up a little just thinking about it :P sorry so graphic… #dcth -8:07 PM Aug 26th, 2010

azzcatdesign @martinluff You're welcome! #dcth -8:07 PM Aug 26th, 2010

martinluff @azzcatdesign thanks a bundle :) #DCTH -8:07 PM Aug 26th, 2010

martinluff #Q2 established set of clients - not chasing new work all time… Practically, work would be mostly 'mashups' of solid web services… #DCTH -8:06 PM Aug 26th, 2010

azzcatdesign @marybdesign I'll be paying off 3 student loans in 5 years. :o #dcth -8:06 PM Aug 26th, 2010

**azzcatdesign** @martinluff Think I found the one you were looking for. Just retweeted it. #dcth -8:06 PM Aug 26th, 2010

DCTH @mikeconaty ok gotcha, it's ok! I thought it was but, couldn't tell what the conversation was going on with. Carry on with #Q1 if so #dcth -8:05 PM Aug 26th, 2010
marybdesign @DCTH I'm hoping to be employed and be able to pay off my student loans :) #dcth -8:05 PM Aug 26th, 2010

azzcatdesign #Q2 OLD…but with much more time! Kiddies all gone. :) Work from Tuscany. #dcth -8:04 PM Aug 26th, 2010
mikeconaty @DCTH Yes… we're still yapping on Q1 though. :-) #DCTH -8:04 PM Aug 26th, 2010

mikeconaty @martinluff Yep. #DCTH -8:03 PM Aug 26th, 2010

martinluff @DCTH - yes #Q2 came through, perhaps folk don't want to think about next five years… #DCTH -8:03 PM Aug 26th, 2010

marybdesign @DCTH I saw it when I logged in. #dcth -8:03 PM Aug 26th, 2010

marybdesign I hope I didn't just jinx it…:P #dcth -8:03 PM Aug 26th, 2010

mikeconaty @marybdesign It's a bit sluggish, but not too bad… #DCTH -8:02 PM Aug 26th, 2010

**DCTH** Did #Q2 come through? #dcth -8:02 PM Aug 26th, 2010

marybdesign @mikeconaty Hey! Is twitter/tweetChat behaving? #dcth -8:02 PM Aug 26th, 2010

martinluff @mikeconaty - yes, and NN fighting-fanatics who don't understand also cause damage - agreed. #DCTH -8:02 PM Aug 26th, 2010

azzcatdesign @martinluff looking… #dcth -8:01 PM Aug 26th, 2010
mikeconaty @marybdesign Heya Mary! #DCTH -8:01 PM Aug 26th, 2010

azzcatdesign @martinluff Got distracted. That or Tweechat is misbehaving again! #dcth -8:00 PM Aug 26th, 2010
martinluff @mikeconaty - exactly… #DCTH -8:00 PM Aug 26th, 2010

marybdesign hey there strangers! how have y'all been!? #dcth -7:59 PM Aug 26th, 2010

mikeconaty @martinluff … that's why I'm not sure what the reaction would be… hard to tell with bees. :-) #DCTH -7:59 PM Aug 26th, 2010

martinluff @azzcatdesign - looks like you were a bit truncated there… #DCTH -7:58 PM Aug 26th, 2010

mikeconaty @martinluff Yeah it could, but we have some real nutcases here that are fighting NN without actually understanding what it is… #DCTH -7:58 PM Aug 26th, 2010

martinluff @azzcatdesign - well I was pretty certain it was… Talked about thinks like putting contact info as Vcard format etc. #DCTH -7:57 PM Aug 26th, 2010

martinluff **@mikeconaty** - true, but it kinda feels risky to even try it out and might cause a lot of damage along the way? #DCTH -7:56 PM Aug 26th, 2010

azzcatdesign **@martinluff** ? not sure you're thinking about one of mine. Had a good tweet link earlier this week. Am looking… #dcth -7:55 PM Aug 26th, 2010

DCTH #Q2 Where do you see yourself in 5 years and why… #dcth -7:55 PM Aug 26th, 2010

mikeconaty **@martinluff** I'm not sure what the reaction will be, I could easily see a Goog/Vzn second speed web going the way of Wave & Buzz #DCTH -7:55 PM Aug 26th, 2010

martinluff **@azzcatdesign** lol… #DCTH -7:54 PM Aug 26th, 2010

azzcatdesign **@martinluff** nice! I just updated the code after being chastised by html5gallery! #dcth -7:54 PM Aug 26th, 2010

martinluff **@azzcatdesign** - do you have a link for the article you wrote about 'why use a web designer' (or something to that effect)? #DCTH -7:53 PM Aug 26th, 2010

azzcatdesign RT **@mikeconaty**: #Q1 Paraphrasing Mark Twain: Reports of the webs death are exaggerated. #dcth -7:53 PM Aug 26th, 2010

azzcatdesign **@martinluff** Heya, Martin! #Q1 If web is dead, I'd better retire now! #dcth -7:52 PM Aug 26th, 2010

martinluff **@azzcatdesign** - have been browsing your site this morning… :) #DCTH -7:52 PM Aug 26th, 2010

mikeconaty #Q1 The basis of the web; content will remain, how that content is accessed is the question. #DCTH -7:52 PM Aug 26th, 2010

martinluff **@azzcatdesign** Hi Cattherine! #DCTH -7:51 PM Aug 26th, 2010

kg_creative **@DCTH** I wouldn't necessarily call it "dead" yet - It's still a medium everyone can access regardless of device. #dcth -7:51 PM Aug 26th, 2010

martinluff **@mikeconaty** - I see it as a potentially catastrophic threat… #DCTH -7:51 PM Aug 26th, 2010

antonea Q1: I think the web is well alive. Apps are integrating and working along side each other to give users a better experience. #dcth -7:51 PM Aug 26th, 2010

azzcatdesign Drats! Late on the one time Twitter seems to be working! Hola!!! #dcth -7:50 PM Aug 26th, 2010

**DCTH** @antonea http://twitter.com/DCTH/status/22219684760 #dcth -7:49 PM Aug 26th, 2010

martinluff @antonea Wired claims "The Web is dead. Do you agree? We're abandoning the web for sleeker apps. (Skype, Netflix, peer-to-peer) #DCTH -7:49 PM Aug 26th, 2010

martinluff @antonea - hi there! #DCTH -7:49 PM Aug 26th, 2010

antonea What is Q1? #dcth -7:48 PM Aug 26th, 2010

mikeconaty @martinluff You're (unfortunately) right on that Martin. #DCTH -7:48 PM Aug 26th, 2010

martinluff @mikeconaty - I'd agree... #DCTH -7:48 PM Aug 26th, 2010

martinluff #Q1 issues like net neutrality (of lack of might just kill it though)? #DCTH -7:48 PM Aug 26th, 2010

mikeconaty #Q1 Paraphrasing Mark Twain: Reports of the web's death are exaggerated. It will continue to evolve, but I wouldn't say dead... yet #DCTH -7:47 PM Aug 26th, 2010

martinluff #Q1 - I see the 'fancy' web services as simply extensions of the 'Web' - depends so much how you define the web #DCTH -7:47 PM Aug 26th, 2010

antonea Good evening/morning everyone! #dcth -7:47 PM Aug 26th, 2010

richhemsley @DCTH I disagree. even though we are heading in that direction, I don't think the web will fully die for quite a while. #dcth -7:46 PM Aug 26th, 2010

martinluff @blueturtlefl - not bad, seems to have been a challenging few months - lots of clients feeling the economic squeeze at present #DCTH -7:46 PM Aug 26th, 2010

blueturtlefl @martinluff I've only used EE for that one site so far. It still hasn't launched yet. #dcth -7:45 PM Aug 26th, 2010

blueturtlefl @martinluff Hi Martin! How are you? #dcth -7:44 PM Aug 26th, 2010

martinluff **@blueturtlefl** - how have you been getting on with ExpressionEngine? #DCTH -7:44 PM Aug 26th, 2010

DCTH #Q1 Wired claims "The Web is dead. Do you agree? We're abandoning the web for sleeker apps. (Skype, Netflix, peer-to-peer) #dcth -7:43 PM Aug 26th, 2010

martinluff **@blueturtlefl** - heloooo tooooo! Not sure, seems pretty sluggish to me... #DCTH -7:43 PM Aug 26th, 2010
blueturtlefl helloooo...is twitter behaving today? #dcth -7:42 PM Aug 26th, 2010

**martinluff** **@ralphsaunders** - design community pokie hour :-) #DCTH -7:41 PM Aug 26th, 2010

DCTH **@ralphsaunders** "Design Community Twitter Hours" it's a time for designers & creatives to come chat & talk shop. #dcth -7:41 PM Aug 26th, 2010

ralphsaunders #Q1 #dcth just what the heck is this thing? -7:40 PM Aug 26th, 2010

mikeconaty **@kg_creative** What is this Facebook with all the poking?!?!? :-) #DCTH -7:38 PM Aug 26th, 2010

DCTH Alright who's got Q's for tonight? This guys. #Q1 coming up in a couple minutes. #dcth -7:38 PM Aug 26th, 2010

richhemsley where is everyone tonight? #dcth -7:37 PM Aug 26th, 2010

richhemsley **@DCTH** not sure, but i bet that axe is pretty heavy for him. #dcth -7:35 PM Aug 26th, 2010

DCTH If a woodchuck could chuck wood and he used an axe instead of a chipper shedder how much could he chuck? #suretogetaresponse #dcth -7:34 PM Aug 26th, 2010

DCTH **@107designs** very true! #dcth -7:33 PM Aug 26th, 2010

kg_creative **@DCTH** poke poke... prod... yup... looks sluggish to me too... #dcth -7:33 PM Aug 26th, 2010

107designs **@DCTH** Well, this is Twitter. And it's a day that ends in "Y" ;) #dcth -7:31

PM Aug 26th, 2010

DCTH Looks a little sluggish this evening. How we all doing? #dcth -7:30 PM Aug 26th, 2010

kg_creative @DCTH Maybe they'll use trade gothic condensed #20 . . . #dcth -7:25 PM Aug 26th, 2010

mikeconaty @DCTH Bwaaa haa haa haaaa #fonthumor #DCTH -7:20 PM Aug 26th, 2010

sn0flke @DCTH eexxxxxceeelllent… But not theatre worthy. ha. #dcth -7:20 PM Aug 26th, 2010

DCTH #dcth Anyone else hear Avatar is going back into theatres with bonus footage? Maybe the "bonus" is helvetica titles… -7:17 PM Aug 26th, 2010

107designs #dcth Hey guys… not sure if I can hang out the whole time, but I'm here for now :) -7:15 PM Aug 26th, 2010

sn0flke @DCTH Once upon a time. I haven't lately. :/ I'm back on the prowl. puahaha #dcth -7:13 PM Aug 26th, 2010

mikeconaty @DCTH Will do Mr. Chad, will do. #DCTH -7:11 PM Aug 26th, 2010

DCTH @mikeconaty no idea. If you find out let me know. #dcth -7:09 PM Aug 26th, 2010

creativereason Bummer. Like so many other Thursday's lately I will miss #DCTH on my commute home… :-/ #dcth -7:09 PM Aug 26th, 2010

adammccombs hey guys #dcth -7:09 PM Aug 26th, 2010

bkmacdaddy @DCTH "Sir"?!? Suddenly I feel very old… :P #dcth -7:08 PM Aug 26th, 2010

mikeconaty So what's this DCTH stuff all about? :-) #DCTH -7:08 PM Aug 26th, 2010

DCTH @sn0flke so you always lurk? :) #dcth -7:07 PM Aug 26th, 2010

DCTH @bkmacdaddy hello sir! Thanks for dropping by! #dcth -7:07 PM Aug 26th, 2010

bkmacdaddy Hello DCTHers! Been awhile since I could break away to join the party, but trying to at least stop by tonight. Cheers! #dcth -7:06 PM Aug 26th, 2010

sn0flke @DCTH I never get to play with the #DCTH crew. I'm watching the stream and hopefully have moments to participate! :) -7:03 PM Aug 26th, 2010

DCTH #dcth **party void where prohibited :) -6:56 PM Aug 26th, 2010

creativereason RT @DCTH: #DCTH coming up in about 15mins! Send over your Q's and get ready for the party. -6:48 PM Aug 26th, 2010

DCTH #DCTH coming up in about 15mins! Send over your Q's and get ready for the party. -6:45 PM Aug 26th, 2010

kg_creative @creativereason A healthy dose of #dcth is necessary for your complete nutrition! (Hi guys!) #dcth -6:42 PM Aug 26th, 2010

creativereason @mikeconaty @kristofcreative hungry for some fresh designs? #dcth #cheesycomment ;-) -10:13 PM Aug 24th, 2010

**kristofcreative** @creativereason The WORLD needs more #DCTH in its diet. -9:39 PM Aug 24th, 2010

**kristofcreative** @mikeconaty Mmmm. Social Flakes and Medialoupes w/ 8 essential ROI's #dcth -9:38 PM Aug 24th, 2010

creativereason @mikeconaty @kristofcreative I definitely need more #DCTH in my diet. -9:38 PM Aug 24th, 2010

mikeconaty @kristofcreative #dcth It's part of this complete breakfast. :-D -9:28 PM Aug 24th, 2010

kristofcreative @mikeconaty Silly me. I forgot that w/ a nice glass of milk, you can enjoy #dcth anytime…. #dcth -9:25 PM Aug 24th, 2010
mikeconaty @kristofcreative #dcth It's not just for Thursday anymore. ;-) -9:23 PM Aug 24th, 2010

kristofcreative Since when did Thurs. become Tues? There's some weird Twitter Voodoo going on here #dcth -9:22 PM Aug 24th, 2010

**HarmonyDaySpa** RT @mikeconaty: RT @AngryPaulRand: 3 easy steps to being a

successful designer: 1) Do great work. 2) Don't be an asshole. 3) There is no step 3. #dcth
